**Subject:** Norther Pass

Hello

We are students at Plymouth State University working on a project researching both sides of the current Northern Pass issue in New Hampshire. We did some research on your website and think you would be a great source to include in our presentation. I am hoping you can provide a statement regarding the Northern Pass, and the OEP's stance on the issue from an Environmental and Planning standpoint.

Thank you for your time,

James Sullivan

Andy Gray

Joe Palmer

Good morning, Mr. Sullivan,

Neither the New Hampshire Department of Environmental Services (DES) nor the New Hampshire Site Evaluation Committee (SEC) (<http://www.nhsec.nh.gov/>) has received a formal application for the proposed Northern Pass Transmission project. While I would like to assist with your project, both DES and the SEC (as regulatory bodies) must remain neutral relative to such a project, its evaluation and ultimate decision. Therefore, I cannot provide a position for either entity at this time. My apologies.

Tim Drew
