21 South Fruit Street, Suite 10  
Concord, NH 03301

ATTENTION: Pamela G. Monroe, Administrator

Dear Ms. Monroe:

This letter is in response to the Environmental Impact Statement brochure, we received this month. I have written letters and emails to the NHSC, the DOE, the DEIS and the NHPR regarding the impact of the Northern Pass Project and it's negative effect on us.

Stark, New Hampshire is our home base. We also own 26 acres of land that has the electric lines easement running along the northern property lines, along with 72 acres which is across the road, which borders along the Upper Ammonoosuc River. Route 110 travels through the landscape of Stark. These electric lines today are low enough to not be seen while driving on Route 110, for the lines are below the tree landscape. With the Northern Pass Project, these lines will be seen all through the Town of Stark's landscape. Both of these parcels of land are being developed into recreational areas, for Lodging, RV's and Tenting. This Northern Pass Project, if allowed to start will not only effect the View Shed and Scenery, of this private property and land use, it will also have an impact on recreation, historic, cultural issues, and most important tourism. Now, both these parcels have the views of Percy Peaks and Long Mountain, this beautiful landscape will be scared with the new height of these transmission towers. If this Northern Pass Project is allowed to start, these massive lines must be buried.

Yours truly,

A handwritten signature in black ink, appearing to read 'KJ Spencer', with a long horizontal flourish extending to the right.
