Please bury the northern half of this
line. We need to save our views. As has
been proved by the gas pipeline, this works
well. Thank, You Raymond

1/24/2016

If you have question(s) for the Applicant or the Site Evaluation Committee that you would like answered during the question and answer session, please write them below:

At the beginning we were led to believe
that money was no object to getting this
project done. Then when there was opposition
to the project the money became the issue.
There needs to be integrity and honesty
on how this project is presented.

Over the past 3 or 4 years Northern Pass
has done their best to pit family vs family
and neighbor vs neighbor. If money is such
an issue then why have they paid out
millions in property and land agreements?

The way this project looks is that NH is becoming the extension chord for Hydro Quebec.

We need the jobs but the jobs you are proposing are only temporary and not as many as you are saying.

This electricity is not going to us in NH but for Southern New England.

They want to call this green energy but this dam flooded a forested area and was built so large just to produce electricity.

*Place the entire length of N.P. underground
this will protect the entire line against
terrorism in addition to protecting people
from radiation from the lines and cancer
The small extra cost is worth protecting
the view field and peoples health.
Either underground entirely or not at all!*

If you wish to provide written comments for the record, please provide your comments below:

I am completely opposed to the Northern Pass.
There are many significant historical sites of local
importance that will be lost forever.

The one asset that NH has is its beauty and
when power lines are no longer used in the
near future - this one gift will be lost.
Who will be responsible for dismantling the
line when it becomes obsolete? which it will

~~COMMENT
ATTACHED~~

Powers That Be

To the powers that be: do you not see?
Can you not hear? Or are you just acting out of fear?
The fate of our land is resting in your hands.
The people have spoken. Please prove to us that the system's not broken.

To the powers that be, in such a powerful company:
How much more will you take from us? Do you realize how much is at stake for us?
How can you stay blind to the devastation left behind
Once you have taken of what we love?
Will it ever be enough?
Or once you have taken, will you just rape us again and again?
You never once asked our permission. You just continue to force your own mission.
Well, this is all we have left. And there is no turning back once the damage is done.
The loss for us is much greater than the gain might be for anyone.

For the ones without a voice: Nature, who has no choice in this.
For all sacred land: I hear you and I understand.
So I sing this for you, that the powers that be may see the truth.
That they may be brave enough to stand up for all of us.
And may they be wise to distinguish the truth from the lies.
May they represent you and me, for we are the ones who give them
The power to be.

Katie Rose, Whitefield
2016
