

Mr. Honigberg (and the Committee),

I wanted to take this opportunity to say “thank you” for realizing it truly is in the “public’s best interest” (and yours as well) to extend the timeframe to 9/30/2017. I understand you’ve received a number of letters criticizing your decision. However, with a project of this scope I pray you do not cave in to the demands that you rescind your decision.

The Applicant has a vast army of well-paid folks trying to push this through. However us unpaid underlings are working on this every breathing minute to review this ocean of data in order to ask the correct questions, as well as point out errors and make suggestions in regards to the Applicants submissions.

We only have one chance to get this right...

Mark W Orzeck
