**Re: Minor Modification to Air Permit  
Granite Ridge Energy, LLC  
21 N. Wentworth Ave  
Londonderry, NH**

Dear Mr. Burack,

The New Hampshire Department of Environmental Services, Air Resources Division (DES) has received an application for a Minor Modification to Title V Operating Permit TV-OP-056, which is the air permit for Granite Ridge Energy, LLC (GRE). The GRE facility was originally constructed and currently operates under a Certificate of Site and Facility issued by the New Hampshire Site Evaluation Committee (SEC). SEC's order issuing the certificate includes provisions authorizing DES to approve minor modifications to the facility's emission sources and control equipment, so long as such modifications do not substantially modify the design of the facility (see page 2 of SEC's order issued May 25, 1999 in SEC Docket No. 98-02, available at: <http://www.nhsec.nh.gov/1998-02/documents/order.pdf>.)

DES has determined that the requested modifications do not substantially modify the design of the facility and, therefore, DES may process the application under the authority delegated by SEC. DES has processed the application under the procedures pursuant to the New Hampshire Code of Administrative Rules, Env-A 612.05, *Minor Modifications: Title V Operating Permits*. A copy of the application is available via DES's OneStop online database under application #13-0072 at: <http://www2.des.state.nh.us/DESOnestop/AFSDetail.aspx?ID=3301590782>.

Please contact Todd A. Moore at [todd.moore@des.nh.gov](mailto:todd.moore@des.nh.gov) or (603) 271-6798 if you have any questions regarding this matter.

Sincerely,

Craig A. Wright  
Acting Director  
Air Resources Division

CAW/gdm
