Mr. Thomas S Burack, Chairman
New Hampshire Site Evaluation Commiittee
N.H. Department of Environmental Services

I'm writing in support of the Granite Reliable Wind Park. I have known about the project for over two years and am a private landowner in the town of Dummer New Hampshire. I have met with representatives from the company and have appreciated their willingness and their openness about discussing the project and it's opportunities and benefits.

I strongly encourage the committee to approve this project because it will provide benefits to the local economy, and help move this nation towards energy independence.

Sincerely,

Bruce Avery
