8. Prefiled Testimony of Jean Vissering
9. Prefiled Testimony of Hope Luhman
10. Prefiled Testimony of David Hessler
11. Prefiled Testimony of Matthew Borkowski

This proposed exhibit list is being submitted to conform with the requirements of RSA 162-H:6-a,I and Site 301.03(k). Granite Reliable Power believes that all of the information required for the approval of the renewable energy facility is contained in the Application. GRP also recognizes, however, that other exhibits may be added as a result of issues that arise during the discovery or hearing process. GRP also recognizes that the Committee may decide to use a different numbering system and that it may decide to mark portions of the Application and Appendices separately as exhibits. This list is a good faith attempt on GRP's part to anticipate, at the time of the filing of the Application, what must be included as an exhibit in this proceeding.
