PROCEEDING

1

2 MR. IACOPINO: We're ready to get Okay. We're here for a prehearing conference. 3 started. My goal out of this conference is to ensure that our 4 adjudicatory hearings next week go as smoothly as 5 possible, with as little delay during the course of the 6 7 hearings as possible. I've passed out an agenda for the conference today. And, obviously, I've listed five issues 8 in there. And, if there are any other issues that any 9 parties need to raise, we can certainly do that. 10 But I 11 think we should proceed pretty much in the order that that agenda is set up for. And, we'll just -- but we'll leave 12 the exhibits as the very last thing, because I know 13 there's a lot of them, and I'm probably going to let Steve 14 -- we'll probably go off the record for the actual marking 15 of them, if they need to be marked, but organization of 16 17 them. Although, I'll probably need you still here, Steve, just so that you know what they consist of. 18

19 The first issue that I think we need to 20 discuss is the order of examination, the time needed for 21 the witnesses, how each party intends to present its 22 witnesses, those sorts of issues. I would like to start 23 with Mr. Needleman. If you can tell me how you plan on 24 calling your witnesses, the order in which you're going to

{SEC 2009-02} [Prehearing conference] {08-20-10}

call them, and how much time you think they should take, 1 2 and then we'll go around the table to the other parties to get sort of an idea of what they plan to do with your 3 4 witnesses. 5 MR. NEEDLEMAN: Sure. We've got the five witnesses who we've prefiled testimony for. 6 I think 7 that the order we're going to do them will be Lou Bravakis 8 first, Mike Bartoszek second, --MR. RODIER: I'm sorry, who was first? 9 MR. NEEDLEMAN: Lou Bravakis. 10 11 MR. RODIER: Oh. Okay. I'm sorry, I 12 didn't hear you. MR. NEEDLEMAN: Mike Bartoszek second, 13 David Frecker third, Carl Strickler fourth, Ray Kusche 14 fifth. My strong preference would be to present them all 15 consecutively and then make them available as a panel for 16 17 cross-examination. And, the reason I would like to do that is because, based both on my experiences in other 18 19 proceedings, and also thinking about how things have gone 20 in this proceeding at the technical sessions, it's pretty 21 rare that a single witness is capable of answering a 22 question; frequently, others chime in. And, I think that 23 it would be much more efficient for the whole process if they were presented as a panel and could answer questions 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

as a panel. That certainly doesn't mean that people can't 1 direct examination to particular people. But I just 2 think, for example, if we go one at a time, and someone 3 asks Lou a question, and Lou can answer it partially, but 4 5 then says "I'm going to really have to turn to Dammon" or to someone else on the panel, we don't have them sworn in 6 7 and haven't presented their testimony, it's just going to slow things down and be awkward. 8 In terms of time, I think that, if I 9 were to present them as a panel and just move them all in 10 consecutively, and put most of our exhibits in at that 11 same time, I think I could probably do that in under two 12 hours. 13 MR. RODIER: May I ask a clarifying 14 question, Mike, or how does this work? 15 MR. IACOPINO: That's fine. 16 17 MR. RODIER: I just want to clarify one thing. 18 19 MR. IACOPINO: Yes. 20 MR. RODIER: What I was going to do is, 21 you know, it's prefiled testimony, so you're just going to 22 ask for summaries from your witnesses? 23 MR. NEEDLEMAN: I'm not going to have 24 them read the testimony. I'm going to have them --{SEC 2009-02} [Prehearing conference] {08-20-10}

MR. RODIER: Okay. 1 2 MR. NEEDLEMAN: -- swear to it, adopt it, and I'm going to ask each one to give a brief summary 3 of the highlights. 4 5 MR. RODIER: Okay. That's good. MR. IACOPINO: And, then, I taken it 6 7 you're going to -- are you going to have them adopt all of your exhibits? Is that your intention or --8 MR. NEEDLEMAN: Well, I'm going to try 9 to do that up front. And, what I've done is tried to 10 11 break up the exhibits as much as I can to tie to the individuals who are primarily responsible for them. 12 It doesn't work perfectly. But, you know, for example, on 13 exhibits related to wood supply issues, things like that, 14 that's primarily going to be Lou Bravakis. And, so, what 15 I want to try to do is identify those and move those in up 16 17 front as I go through the witnesses. MR. IACOPINO: What does Counsel for the 18 19 Public think of that presentation? 20 MR. ROTH: I don't particularly like it. There are a couple of things that are objectionable, 21 22 starting with the -- starting with the last one first. 23 The typical way I've seen this done is the witness is sworn in, adopts his testimony, and announces any changes 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

in the testimony, but there isn't an opportunity to give direct testimony by "summarizing it" and hitting the high points. That's never the way I've seen it done here. And, I don't think the Committee would want to sit for two hours while you go through that process, which is kind of in derogation of the whole procedure.

7 Secondly, the submitting the panel as a 8 bulk panel is not consistent with the way the testimonies were filed, and deprives us of an effective way to 9 cross-examine the witnesses, who may give different 10 answers to similar questions. And, to have them all 11 sitting there sort of rising and, you know, playing a 12 little bit of whack-a-mole for the cross-examiner is a bit 13 unfair. 14

And, if, for example, there were two witnesses who had joint prefiled testimony, I could see that being a panel. But, to say the whole lot of them, all five of them go up and get to pick and choose who answers the question, I think does not -- is not faithful to the cross-examination process, and we would object to that.

22 MR. IACOPINO: Let me ask -- let me ask 23 you, Barry, where do you see the overlap on the witnesses? 24 MR. NEEDLEMAN: Well, for example, when

{SEC 2009-02} [Prehearing conference] {08-20-10}

we were at one of the technical sessions, and a question 1 was directed at Mike Bartoszek about experience associated 2 with financing projects like this, Mike answered that 3 question in part, and then Carl Strickler also offered his 4 experience dealing with that. So, I mean, I just expect 5 that, in a process like this, there's going to be overlap. 6 7 I expect that, for example, if someone 8 asks a question about global warming issues, greenhouse gas issues, Lou is going to have something to say about 9 that, and then, on the technical side, Dammon Frecker may 10 11 have something to say about that as well. But I -- I mean, my view is it's not -- I don't intend to deprive 12 anyone of a fair chance to examine. I've seen it done 13 this way, I think, a number of times. And, I just think 14 that, in terms of trying to move us through the process, 15 it will unquestionably be more efficient. 16 17 MR. IACOPINO: Is there any smaller panel breakouts that you could envision? 18 19 MR. NEEDLEMAN: I haven't really thought 20 about it in that respect, only because it's just hard for 21 me to try to predict all the places where there's overlap 22 or other people may have things to say. 23 MR. IACOPINO: Well, let me ask this of 24 each party. How much time do you think your {SEC 2009-02} [Prehearing conference] {08-20-10}

1 cross-examination of each of these witnesses, for our 2 purposes right now, let's just presume you're going to 3 take each witness separately, how much time would you 4 anticipate in cross-examination? And, I'll start just to 5 my left with Mr. Schnipper, for -- go through the list, 6 Lou Bravakis?

7 MR. SCHNIPPER: We don't imagine that we 8 would be cross-examining anyone except Mr. Bravakis, you 9 know, and it's only a very remote chance. And, let me 10 just say to start that we're still working with the 11 Applicant to just reach a completely agreed upon proposed 12 set of permit conditions. And, if that happens, we won't 13 be doing any cross-examination.

MR. IACOPINO: Well, let's assume you don't. How much time? I'm just trying to get an idea what the timing is.

MR. SCHNIPPER: I mean, a half hour. Because we've already reached agreement on most, so there's only a few things that would even need to be probed, in any event.

21 MR. IACOPINO: Okay. Counsel for the --22 and, is that just Mr. Bravakis? 23 MR. SCHNIPPER: Yes. I don't think 24 we'll have questions for anyone else.

{SEC 2009-02} [Prehearing conference] {08-20-10}

1 MR. IACOPINO: Okay. And, how about, Counsel for the Public, for each witness what -- and 2 roughly, I'm not -- this is nothing that you're going to 3 be held to. In fact, Mr. Burack probably won't even know 4 that we've had this discussion to this level of detail. 5 But I'm just trying to get an idea so that we can make a 6 7 determination as to what the best way to actually do this will be. 8 MR. ROTH: We don't anticipate having 9 questions for everyone. And, at the most, 30 minutes per 10 11 witness. MR. IACOPINO: Okay. 12 Jim? MR. RODIER: Well, we are somewhat 13 14 hamstrung by the fact that we're a limited intervenor, 15 which we, you know, we disagree with that. But that could -- so, what I'm saying is, there's going to -- there may 16 well be a difference here between what we'd like to do for 17 cross-examination and what we're allowed to do. 18 19 MR. IACOPINO: For our purposes today, 20 though, why don't you tell us what you anticipate based 21 upon what you would like to do. 22 MR. RODIER: Okay. That's where I was 23 going --MR. IACOPINO: And, that way, because I 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

1 assume, if you don't get to do what you'd like to do, it's going to be shorter, so that we at least have a 2 conservative --3 MR. ROTH: We're looking for a worst 4 5 case; your best case. MR. IACOPINO: -- so we have a 6 7 conservative estimate. So, with Bravakis, a 8 MR. RODIER: Sure. couple hours; Kusche, an hour. Want me to use six minute 9 increments here or --10 11 MR. IACOPINO: We're all used to it. 12 MR. RODIER: Strickler, an hour; Bartoszek, an hour; and Frecker a half hour. 13 14 MR. IACOPINO: And, what's your position 15 with cross-examining them as a panel? 16 MR. RODIER: Well you know, the PUC does 17 it. MR. IACOPINO: I mean, there's nothing 18 19 that limits you from directing your --20 MR. RODIER: Well, I was going to say, 21 you can always direct a question. 22 MR. IACOPINO: Right. 23 MR. RODIER: But, I -- having heard the objections of the Attorney General, I mean, I would have 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

to say I don't want to -- I don't want to disagree, because he's got good points. So, I think I was probably ready to say "we'll live with, you know, Laidlaw's proposal." But I think the objections have some merit that should be considered or, you know, it may be better to take them one at a time.

7 MR. ROTH: Mike and Barry, I wouldn't be 8 opposed to taking them in smaller groups, if you want to, you know, tag team them with one, you know, one other 9 person in a given case. That's fairly typical and 10 11 understandable. But, just to have the whole phalanx of them being able to pick and choose how a question gets 12 answered, I just don't think that that's 13 cross-examination, that's "Who Wants to be a Millionaire?" 14 MR. IACOPINO: Well, is your concern, 15 Peter, that, essentially, if you were to, let's say he 16 17 tendered the whole panel, is it your concern, when you say "it's not cross-examination", that you're afraid that 18 you'll ask particular cross-examination questions of a 19 20 particular witness, and he will get help from the other 21 ones in answering the questions or --

22 MR. ROTH: Yes, that's essentially the 23 problem. Because, you know, the witness's testimony is 24 supposed to essentially stand for -- stand on its own, and

{SEC 2009-02} [Prehearing conference] {08-20-10}

1 it comes with some expertise and knowledge. If, on cross-examination, the cross-examination the witness is 2 unable to answer the question or doesn't have the 3 information pertinent to his own testimony, that should be 4 an obvious thing. But, if he's got, you know, four 5 friends that he can, you know, phone a friend, and 6 7 somebody else can bolster his testimony, who has not submitted testimony on that issue, then the whole thing 8 gets really watered down. And, I just don't think that 9 that's the way it should work. 10

11 MR. NEEDLEMAN: I think, and there's an important point there as well. I mean, it's been 12 customary, in my experience dealing with this Committee, 13 that to the extent there's a witness that can't fully 14 15 answer a question, but there's somebody else that's part 16 of our group that's there, we've turned to that person in 17 the past who has been able to provide additional information, I'm thinking most recently when we did the 18 NAEA proceeding, and there was a guy from the Shell Energy 19 20 Trading, and someone asked a question and it couldn't be 21 completely answered, the guy from Shell Energy Trading 22 stood up and provided more information, and that gave the 23 Committee what it needed.

24 MR. ROTH: When the Committee asks {SEC 2009-02} [Prehearing conference] {08-20-10}

questions, that's a fairly typical process. But the Committee isn't cross-examining, the Committee is seeking information. And, --

1

2

3

MR. IACOPINO: Well, and that, Peter, 4 that is the Committee's goal for the whole proceeding, is 5 to obtain the information that's necessary to determine 6 7 whether or not to grant or deny a certificate. So, I 8 mean, oftentimes, I mean, even if you have one witness at a time, and you do a stellar cross-examination and all the 9 witness can say is "well, jeez, I don't know. I'd have to 10 11 defer that to, you know, the next witness", or whatever, I mean, yes, it's probably uncomfortable for the witness, 12 but I'm not sure what kind of actual effect it has on the 13 14 decision of the Committee, because the Committee is 15 looking for the information, as opposed to -- I mean, for 16 the most part in these things, unless there's a real 17 credibility issue about a particular witness, there's not, you know, that's not really the focus. By the same token, 18 19 though, just putting all of your witnesses up on a panel 20 is not how the Committee is used to doing things. 21 Normally, we've had, when we've had panels, the panels 22 have been designed by looking at the subject matter of the 23 witnesses' testimony. So, if you have, you know, a witness who is going to testify about, you know, the 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

wetlands issues, and you've got somebody who is going to 1 testify about wildlife, oftentimes we've, you know, put 2 them on, because lots of times, as a panel, because their 3 testimony is going to overlap in areas. 4 So, there should be a medium here, 5 between just simply saying "I'm going to present all my 6 7 witnesses and then tender them for cross-examination." Is there some kind of breakdown of the witnesses that you 8 think would be -- where we can deal with those overlaps? 9 10 MR. NEEDLEMAN: Sure. I'm not sure -- I 11 haven't really thought about this, so I'm not sure it's going to work perfectly. But I suppose one way we could 12 do it is I could try putting Lou, Ray, and Carl up. 13 And, the reason I think of that is Lou is primarily responsible 14 15 for introducing sort of the overall big picture of the 16 Project and talking about wood supply issues. Carl and 17 Ray are sort of the technical/environmental. So, if I'm trying to project places where there is most likely to be 18 overlap, it seems to me that's one of those places. 19 That 20 leaves Mike Bartoszek and Ray, I guess, --21 MR. IACOPINO: Dammon? 22 MS. VAUGHN: You meant to say Dammon. 23 "Dammon". 24 MR. NEEDLEMAN: I'm sorry. Let me say

{SEC 2009-02} [Prehearing conference] {08-20-10}

it again. 1 2 MR. ROTH: Not "Lou, Ray, Carl", you mean "Lou, Dammon, Carl"? 3 4 MR. NEEDLEMAN: I mean "Lou, Dammon, 5 Carl", correct. I'm sorry. I'm not really sure it would make sense then to take Mike and Ray together as a panel, 6 7 because I'm not really sure there is much overlap between their issues, so I suppose we could do them separately. 8 MR. ROTH: That would work. 9 MR. BROOKS: And, Mike, just for 10 Yes. 11 your consideration, too. I think that, you know, this isn't necessarily an adversarial proceeding, but it is an 12 adjudicatory proceeding. And, we want to efficiently get 13 information out there, but I think it's helpful to be able 14 to have a witness who, if they filed prefiled testimony on 15 a topic, has to answer the question. If for no other 16 17 reason than -- I don't want to have someone just say "I don't know", "I don't know". But I want to see if the 18 19 answer is being consistent between one person who has 20 knowledge on a topic and between the next person, without 21 the benefit of them either conferring or just deferring. 22 So, I don't mind a smaller panel either, but just 23 anticipate that I may want to say, too, if there's a panel of three, to say "this question is for you and you alone", 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

and to the extent that I give them the extra leeway, then
 that would be fine.

3 MR. IACOPINO: I don't think there's any 4 problem with that, and you're always free to direct your 5 questions to an individual. And, if he starts to get 6 assistance from somebody else, I have actually seen 7 chairpeople from our Committee say "no, the question was 8 asked to so and so."

9 MR. BROOKS: And, if it's appropriate, I 10 would like to be able to do that as well. And, obviously, 11 the SEC can say "no, we want to hear." But I just want to 12 -- people may anticipate that I may want one witness to 13 answer one question.

MR. IACOPINO: Oh, I think that's -- I 14 think that's fair. And, I also think that it addresses 15 16 the issues that, just as far as organizing a Committee 17 proceeding, I think that that, you know, doing it in three panels is easier for -- it's easier for Mr. Patnaude, it's 18 easier for the Committee, I think. And, it also, if it 19 20 breaks it out somewhat by subject matter, it's also easier 21 for everybody to be organized in how they're going to 22 approach their cross-examination. What do you guys at 23 Clean Power think about that?

24

MR. RODIER: Well, this last iteration
{SEC 2009-02} [Prehearing conference] {08-20-10}

1 sounded good. MR. IACOPINO: Okay. All right. 2 So, why don't we agree -- well, why don't we do it that way 3 Would you envision the three-person panel with 4 then. Mr. Bravakis, Mr. Kusche, and Mr. Frecker as being first? 5 MR. NEEDLEMAN: Not Mr. Kusche. 6 7 MR. IACOPINO: Oh, did I get the wrong 8 one? I'm sorry. 9 MR. NEEDLEMAN: Yes. That's okay. Ι messed up. Let me do it for you again. The panel, which 10 I think will go first, will be Lou Bravakis, Carl 11 Strickler, and Dammon Frecker. Is that what I said? 12 13 Right. 14 MR. IACOPINO: Okay. 15 MR. NEEDLEMAN: And, then, when the panel is done, Mike Bartoszek will go individually. And, 16 17 then, when he's done, Ray Kusche will go individually. And, who's going to address MR. ROTH: 18 financial, technical, managerial, is that going to be 19 20 Bartoszek or Kusche? MR. NEEDLEMAN: No, Mike is going to 21 22 address financial aspects, and then Carl is going to 23 address technical/managerial primarily. MR. ROTH: 24 Carl? {SEC 2009-02} [Prehearing conference] {08-20-10}

MR. NEEDLEMAN: Stickler. 1 2 MR. ROTH: Stickler. MR. IACOPINO: He's in that first panel. 3 So, I guess, and I don't 4 MR. ROTH: quite see the link between Strickler and Bravakis and 5 Typically, the way I would have expected it to 6 Frecker. 7 be broken out would be, and just in the logic of how these proceedings have worked for me in the past, is Strickler 8 would pair up with Bartoszek, because that's sort of a 9 common subject matter, and kind of one of the findings 10 altogether, financial, technical, managerial capabilities. 11 MR. IACOPINO: He knows his witnesses 12 better than --13 14 MR. NEEDLEMAN: Yes. I mean, and there 15 are different ways to skin the cat. That's one way. Ι 16 was just thinking the other way to do it was to put the 17 people up there that collectively have sort of the overall facility knowledge, the technical knowledge, the 18 environmental knowledge, because those tend to be 19 20 questions that I find are blended together. Whereas, the 21 financial aspects tend to sort of stand on their own and 22 not mix with those other topic areas. 23 MR. IACOPINO: All right. So, if I 24 understand, basically, you're saying is you're sort of {SEC 2009-02} [Prehearing conference] {08-20-10}

peeling the technical out of the financial and managerial, 1 because it deals with more on-the-ground type stuff. 2 And. that's why you've put Mr. Frecker in with Mr. Bravakis, 3 who's sort of an overall overview witness, and with 4 Mr. Strickler, who's the technical guy, and then 5 Mr. Frecker is the technical guy, too? 6 7 MR. NEEDLEMAN: Correct. 8 MR. ROTH: Barry, there's nothing wrong with having Strickler sit for -- sit with Bartoszek during 9 the financial, technical, managerial type questions, so 10 11 that he could sit in two panels. Answer questions that are sort of, you know, I don't know how to put it, but 12 that go along with environmental impacts, along with 13 Bravakis and Frecker, and have him respond to operational 14 and safety kind of details when he's sitting with 15 16 Bartoszek. 17 MR. IACOPINO: So, you don't have any problem if Strickler sat in both, both panels basically? 18 MR. ROTH: 19 No. MR. BROOKS: I think it would make more 20 21 sense to do that. 22 MR. IACOPINO: Okay. 23 MR. ROTH: And then have him respond to 24 different questions on different panels. {SEC 2009-02} [Prehearing conference] {08-20-10}

1 MR. IACOPINO: Do you have any problem with that, Jim? 2 MR. RODIER: 3 No. By the way, is somebody writing this up, so that we'll all have this game 4 5 plan? MR. IACOPINO: Yes. I'm going to --6 7 there will be an agenda that will be handed out Monday morning that will have --8 9 MR. RODIER: Good. MR. IACOPINO: Assuming, now understand, 10 11 I am not a decision-maker on this Committee. MR. RODIER: Yes. 12 13 MR. IACOPINO: I mean, Tom Burack may 14 look at everything we do here today and say "That's not 15 the way I'm doing it." I don't think that will be the 16 case, but he's going to, you know, he's going to be the 17 presiding officer at the hearing, so he'll have the final But my guess is what we -- we agree on doing this, 18 say. he's going to agree with that. 19 20 MR. NEEDLEMAN: That's fine. 21 MR. ROTH: What is Ray's area? 22 MR. NEEDLEMAN: Interconnection. 23 MR. ROTH: Okay. Electrical. MR. IACOPINO: So, it looks like the 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

plan right now is the first panel will be three witnesses; 1 Mr. Bravakis, Mr. Strickler, and Mr. Frecker; the second 2 set of witnesses will be a panel as well, which will be 3 Mr. Strickler again and Mr. Bartoszek; and then the last 4 witness will be alone, and it will be Mr. Kusche. 5 MR. NEEDLEMAN: 6 Yes. 7 MR. IACOPINO: Okay. Good. By the way, 8 does any of that organization of those witnesses, Jim, 9 change any of your estimates, in terms of your amount of cross-examine? 10 11 MR. RODIER: I don't think so. 12 MR. IACOPINO: Okay. MR. RODIER: You know, a lot of 13 cross-examination is a function, you could have a 14 recalcitrant -- you could say "I want an hour", have a 15 recalcitrant witness go nowhere. So, I mean, --16 17 MR. IACOPINO: Like I said, nobody is holding anybody to here. We all understand it's a fluid 18 19 process. 20 MR. RODIER: All right. So, that's 21 fine. 22 MR. IACOPINO: The order that we have 23 traditionally done cross-examination in SEC proceedings has been, normally, the witness goes on and is presented, 24

22

{SEC 2009-02} [Prehearing conference] {08-20-10}

there's been questions from the Committee, and then, 1 2 normally, we go into the parties' cross-examination. And, some occasions Public Counsel has requested to go first, 3 on other occasions they have requested to go last. And, 4 my experience with who's ever been our presiding officer 5 is they have usually acquiesced to whatever Counsel for 6 the Public's desire is. And, so, I will give you the 7 first choice on that. 8 MR. ROTH: Well, my first, I mean, I 9 don't know, maybe I've got summer befuddlement, but I 10 always thought that the Committee asked questions after 11 the cross-examinations had been done? 12 MR. IACOPINO: I always thought we went 13 first. 14 15 MR. ROTH: Your court reporter is nodding "yes", though. 16 17 MR. IACOPINO: Am I wrong? Okay. I've got it wrong then. That's -- you're probably correct 18 19 there. 20 MR. ROTH: Okay. Well, we appreciate 21 the prerogative or having the choice, we will -- of being 22 first, we will go last. 23 MR. IACOPINO: Okay. Since you've only 24 -- I'm going to put the City, you say you only have {SEC 2009-02} [Prehearing conference] {08-20-10}

24 1 questions for Mr. Bravakis? 2 MR. SCHNIPPER: Yes, and potentially so. MR. IACOPINO: All right. Right now. 3 Your plan. 4 MR. SCHNIPPER: We're happy to go first. 5 MR. IACOPINO: Okay. So, I think we'd 6 7 put the City first, then allow Clean Power, and then allow Counsel for the Public. Any problem with that order? 8 That order of questioning? 9 MR. RODIER: No problem. I need to talk 10 11 to Mel for 30 seconds. MR. IACOPINO: Sure. 12 MR. RODIER: May I just go over here? 13 14 MR. IACOPINO: No problem. 15 (Off the record.) 16 MR. IACOPINO: Okay. Any -- I know you 17 talked with Mr. Liston. Any change in your position at all? 18 19 MR. RODIER: No. Not on anything discussed so far. 20 21 MR. IACOPINO: Okay. All right. The 22 next -- so, I guess we've got number one on the agenda 23 worked out. MR. NEEDLEMAN: Actually, do we fully? 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

I'm just curious, after we've presented our case, who are 1 the next witnesses? 2 MR. IACOPINO: You'll get redirect. 3 MR. NEEDLEMAN: No, I'm not talking 4 about redirect, I'm talking about there are other 5 witnesses besides Laidlaw's. What's that order? 6 7 MR. IACOPINO: Yes. Okay. MR. RODIER: Well, that's -- we got 8 prefiled from Mel Liston and Bill Gabler. 9 MR. IACOPINO: Right. 10 11 MR. RODIER: Mel is basically biomass availability, as everybody knows, and Gabler is on the 12 transmission and interconnection issue. It would, you 13 know, to put them up there, we were contemplating 14 15 individually, because there's not much overlap there. But, you know, how long would having them authenticate --16 17 identify themselves, authenticate their testimony or whatever, and give a summary? Fifteen minutes, maybe. 18 19 MR. IACOPINO: Okay. 20 MR. RODIER: Okay? Now, there's one 21 issue that I did want to bring up here, it's one that I 22 may have briefly mentioned to you earlier this week, 23 Mr. Hearing Examiner, and that is that Mel Liston has a sister in Florida who's very, very ill. And, it's sort of 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

1 like a day-to-day thing here, you know, if something looks really bad and imminent or whether it's a good day, that 2 kind of thing. So, the way that it's going right now, it 3 looks like he is going to be available next week. We --4 let's say it's Tuesday, for sake of discussion, --5 MR. IACOPINO: Okay. 6 7 MR. RODIER: -- that CPD goes on? So, 8 you know, he would be around. But our backup plan, in the event that he has to go to Florida, was we have prepared 9 Peter Bloomfield to adopt fully Mel's testimony and 10 responses. That's our backup plan, should it be needed. 11 But I do also want to, you know, suggest right now that 12 what we would like to do is have a panel of Mel and Peter 13 available for, certainly, for questions from the 14 Committee, but also for cross-examination on CPD's biomass 15 availability testimony. That's what we'd like to do. 16 17 MR. IACOPINO: Peter? MR. RODIER: I'm sorry. Peter 18 19 Bloomfield. 20 MR. IACOPINO: Right. But --21 MR. RODIER: And, --22 MR. IACOPINO: Okay, we have no -- I 23 understand he may substitute if Mel has to go leave because of his sister. 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

27 1 MR. RODIER: Yes, I know. 2 MR. IACOPINO: But in terms of a panel? I don't know, you're talking about a panel with Peter, we 3 don't have any prefiled testimony from him? 4 I know you don't. 5 MR. RODIER: But he's fully in agreement word-for-word with what has been 6 7 prefiled. 8 MR. ROTH: I thought you had proposed a panel where he and the prefiler would sit together? Did I 9 misunderstand that? 10 11 MR. RODIER: Correct. That's what we 12 plan on doing now. 13 MR. IACOPINO: So, what's your --14 MR. RODIER: Unless Mel's got to go to Florida, that's what we're --15 16 MR. ROTH: But, if he didn't file 17 testimony, he shouldn't be on a panel. MR. RODIER: Okay. 18 19 MR. ROTH: Unless he's adopting testimony and sits by himself, that I would agree to. 20 21 MR. RODIER: Okay. 22 MR. ROTH: But I do not think he should 23 sit on a panel, and, you know, for the same reason I objected to their bulking of their panel, you know, the 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

guy has not really --1 2 MR. RODIER: Okay. I understand. Sure. MR. IACOPINO: I think it's -- and, it's 3 also difficult for a party to, I mean, what you get is 4 5 cross-examination, --MR. RODIER: Well, look, let me ask this 6 7 MR. IACOPINO: -- it's difficult to 8 cross-examine somebody who you don't know anything about. 9 MR. RODIER: Right. 10 11 I mean, obviously, you MR. IACOPINO: all know things about each other, but that you don't know 12 really what the guts of their testimony is as well. 13 MR. ROTH: Yes. This is not "Who Wants 14 to be a Millionaire?" 15 16 MR. RODIER: Okay. Well, let's -- let 17 me then, I guess, leave it this way. If Mel has to go to Florida over this weekend, then would there be any problem 18 with substituting Peter Bloomfield, if he adopts his 19 testimony, --20 21 MR. IACOPINO: Anybody have any 22 objection? 23 MR. RODIER: -- as our fallback plan? 24 MR. ROTH: I would not object. {SEC 2009-02} [Prehearing conference] {08-20-10}

29 1 MR. SCHNIPPER: No objection. 2 MR. RODIER: Everybody know who Peter Bloomfield is? 3 MR. NEEDLEMAN: Yes, I do. 4 I would have 5 no objection --6 (Court reporter interruption.) 7 MR. NEEDLEMAN: I would certainly have 8 no objection, if circumstances require Mel to be away. Ι would just want to be certain that Peter is fully adopting 9 everything, --10 11 MR. RODIER: Yes. MR. NEEDLEMAN: -- so that we can fairly 12 question him about everything and there would be no delay 13 14 in process. 15 MR. RODIER: Okay. Yes. That's --16 MR. IACOPINO: And, I guess I want to 17 explore this a little bit more, though, Jim. Is it, in proposing the panel, is it your understanding that Peter 18 brings something additional? 19 20 MR. RODIER: Well, he currently buys a 21 lot of wood. 22 MR. IACOPINO: Okay. 23 MR. RODIER: So, that's what it's all 24 about. {SEC 2009-02} [Prehearing conference] {08-20-10}

30 MR. IACOPINO: All right. 1 It's not abstract with 2 MR. RODIER: Peter Bloomfield. It's what's going on out there. 3 MR. IACOPINO: Well, I understand. 4 But, 5 if you're going to put things in to determine whether they're concrete or abstract, I mean, what's been 6 7 presented to the Committee so far on that issue is really studies and opinions based on those studies. 8 MR. RODIER: No, I know. 9 MR. IACOPINO: And, you know, it just 10 11 seems to me that it's sort of unfair to the other parties if you then add sort of another figure in there, and 12 you're actually going to try to trade off on his -- on his 13 background and his qualifications, which is unfair to the 14 15 other parties. 16 I mean, you can always -- like I say, I 17 am not the presiding officer, you can request to put him on of the Chairman, once the hearings get started. 18 But, as far as, I mean, to me that just doesn't seem like it's 19 20 fair to the other parties. 21 MR. RODIER: Yes. That's fine. So, I 22 understand what you're saying. Oh, my God, I had 23 something else. Oh. The only thing I want to add here as sort of background, you know, with the relationship with 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

Gestamp, G-e-s-t-a-m-p, Peter Bloomfield is taking a 1 active, he was just a member of the LLC and like on the 2 board, and now he's very actively involved with CPD. 3 And, this, you know, on a day-to-day basis, it's going to be 4 his actual responsibility. So, there has been some 5 restructuring of the responsibility to CPD, to some 6 7 extent, for the roles. So, that was what kind of gave thought to this. But, look, your points are well-taken, 8 and I think we probably -- I heard the opinions of 9 everybody, and I also heard you say we can get one last 10 shot at the Committee, if we really felt strongly on this. 11 MR. IACOPINO: 12 Right. MR. RODIER: Assuming Mel is even going 13 to be in town. 14 15 MR. IACOPINO: I mean, one thing -- one 16 thing about Gestamp, I understand the relationship, at 17 least from the press releases and whatnot. But, I mean, the Clean Power Development Project is not what's being 18 19 determined here. And, the relationship with Gestamp, and 20 any role that Gestamp may play in Clean Power 21 Development's Project, I don't really know how relevant or 22 material that is to what the Committee has to determine 23 with regard to this application. MR. RODIER: No, I was talking about 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

Peter Bloomfield's role with CPD. 1 MR. IACOPINO: Okay. So, he's becoming 2 a bigger player in the company and that's --3 MR. RODIER: Yes. 4 5 MR. IACOPINO: -- or, a more day-to-day player, I should say? 6 7 MR. RODIER: Is that right, Mel? 8 MR. LISTON: That's correct. 9 MR. IACOPINO: Okay. All right. Well, I think it raises some issues, and I certainly wouldn't 10 recommend it at this point. 11 12 MR. RODIER: Okay. MR. IACOPINO: But you're free to raise 13 14 it with Commissioner Burack on Monday. And, by the same 15 token, though, to the other parties, I mean, if, in fact, 16 Mr. Liston cannot be here because of his family 17 circumstances, you know, I mean, you're pretty much saying "we'll allow him to adopt his testimony", you're sort of 18 saying "well, he's going to be" -- "he can be a witness 19 20 under those circumstances." And, I suppose the question 21 always can be posed is, "if he can be a witness under 22 those circumstances, why can't he be a witness about those 23 issues under these circumstances?" I agree, it's not fair to just allow in the trade-off on his qualifications and 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

experience. But that is sort of a question that you might 1 face, if they do move to have Mr. Bloomfield actually 2 testify. 3 MR. NEEDLEMAN: Well, it's a fair 4 5 question. And, I would like to speak to that now, just so my reasoning is clear. 6 7 MR. IACOPINO: Yes. 8 MR. NEEDLEMAN: I am opposed to the idea of them functioning as a panel. I am not opposed to the 9 idea of Mr. Bloomfield substituting. If Mel has a family 10 issue, I respect that and I don't want this proceeding to 11 trump that. And, I'm willing to be flexible in that 12 circumstance. But that same flexibility doesn't extend to 13 just giving him the benefit of adding witnesses at the 14 15 eleventh hour to create a panel. 16 MR. ROTH: And, we share that, too. 17 MR. IACOPINO: Okay. There is a difference between 18 MR. ROTH: 19 bolstering a weak witness who may need bolstering and 20 standing alone by himself. 21 MR. IACOPINO: Well, I just -- well, I'm 22 not sure anybody was going to be a weak witness. But I'm 23 just raising it because I just want, you know, I want it aired out here that there is another side to the whole 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

issue, that I want everybody just to be aware of, in case,
 on Monday morning, we are dealing with this with the
 Committee.

The fallback position I 4 MR. BROOKS: think would be Bloomfield doesn't get to testify under 5 either circumstance, that's -- if we've got to choose one 6 7 or the other. And, we're doing it merely because there's 8 a very real-life expediency that we need to deal with. And, out of courtesy and out of the hope that we give the 9 SEC good information, we're willing to kind of bend over 10 backwards and go along with that. 11

12 MR. IACOPINO: Okay.

13

MR. RODIER: Great.

MR. IACOPINO: All right. So, at this point, I'm going to prepare this agenda for next week without Mr. Bloomfield on a panel. And, obviously, we know what the position is, if, unfortunately, you have to go to Florida. Okay. And, then, the City intends to put on Ms. Laflamme, is that correct?

20 MR. SCHNIPPER: The City would be 21 putting on Pam Laflamme, the City Planner, as their only 22 witness. If at all possible, we would prefer to put her 23 on on Tuesday. We don't anticipate that her testimony 24 will be long. Assuming that, even if there are the very

{SEC 2009-02} [Prehearing conference] {08-20-10}

few remaining issues unresolved between Laidlaw and the 1 City, I still think that our examination of her will be no 2 longer than an hour at the most. And, then, I don't know 3 to what extent their might be some cross-examination. 4 5 But, if we can get her in on Tuesday, for her personal schedule, that would be much --6 7 MR. IACOPINO: Well, really, what you're 8 asking is for her to be the -- for you to present your case in chief immediately after the Applicant's done? 9 MR. SCHNIPPER: That's correct. 10 MR. IACOPINO: Any objection to that? 11 12 (No verbal response) MR. IACOPINO: I mean, as I understand, 13 Counsel for the Public doesn't have any witnesses. 14 So, it's really -- do you have -- you're the next, I've got 15 two sets of witnesses; one from the City, one from Clean 16 17 Power. Do you have any objection to the City putting their case in chief in first? 18 19 MR. RODIER: Of course not. 20 MR. IACOPINO: Okay. And, how much time do each of the parties think that they will spend -- oh, 21 22 I'm sorry. With Mr. Liston and Mr. Gabler, how much time 23 would you expect on cross-examination? 24 MR. NEEDLEMAN: My best guess now is 45 {SEC 2009-02} [Prehearing conference] {08-20-10}

minutes to an hour with Mr. Liston, and 15 minutes to 30 1 minutes with Mr. Gabler. 2 MR. IACOPINO: Counsel for the Public? 3 Thirty minutes apiece. 4 MR. BROOKS: 5 MR. SCHNIPPER: We don't anticipate having any questions for them. 6 7 MR. IACOPINO: And, then, for Pam, 8 Ms. Laflamme? MR. RODIER: Well, if there's going to 9 -- if there's a stipulation here, it's been discussed, I 10 don't, you know, then we probably would be interested in 11 asking some questions about --12 MR. IACOPINO: I'm just trying to get --13 14 MR. RODIER: Who's going to present the stipulation? Your witness? 15 16 MR. SCHNIPPER: Well, there's going to 17 be kind of a two-phased approach. You know, a large amount of it is already definitely agreed on between us. 18 19 So, I assume that Laidlaw will put in that part, for it's own, I suppose, even if there is an incomplete agreement, 20 21 is when it puts in its exhibits, I don't know that for a 22 fact. 23 MR. IACOPINO: Let me ask this question. 24 Those exhibits that you e-mailed to everybody yesterday --{SEC 2009-02} [Prehearing conference] {08-20-10}

1 MR. SCHNIPPER: Well, I just e-mailed those to you actually, to the Committee. 2 MR. IACOPINO: Oh. 3 MR. SCHNIPPER: And, I have hard copies 4 here for --5 MR. IACOPINO: Okay. Those documents, 6 7 do they include everything that has been agreed upon so 8 far, --9 MR. SCHNIPPER: They do. MR. IACOPINO: -- so they can prepare 10 11 what they're going to have to cross-examine over? MR. SCHNIPPER: Well, yes, with one 12 exception, that's already -- we have agreed is going to be 13 removed. And, maybe that will be best addressed when I 14 distribute the exhibits. 15 16 MR. IACOPINO: Okay. 17 MR. SCHNIPPER: And, then, there are basically blank spots left for the few issues that still 18 are under discussion between --19 20 MR. IACOPINO: So, when Jim leaves here 21 today, he will have a very good idea of what the bulk of the -- and when Counsel for the Public leaves here today, 22 23 they will have a good idea of what the bulk of the agreements between the City of Berlin and the Applicant 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

are, and that there may be some further stipulations that 1 occur between now and the end of the hearing? 2 MR. SCHNIPPER: That's correct. 3 And, they're even -- I would just say that we would reserve the 4 right to seek leave to amend them more significantly, if 5 we needed to. 6 7 MR. IACOPINO: Certainly. MR. SCHNIPPER: But, basically, the 8 parties have worked long and hard to create what you've 9 got there in front of you, and we assume that we're going 10 11 to resolve the last few outstanding bits before the hearing begins. If we don't, we'd have to present 12 evidence on our two different positions on those. But we 13 don't anticipate right now that we won't be able to come 14 15 an agreement. But, in any case, Jim and the Counsel for 16 the Public will have the vast bulk of it over the weekend 17 to work with. MR. IACOPINO: Okay. Let me do this 18 19 then. Let me start with Barry. I'll get to you in just a 20 second, okay? How much cross-examination would you intend 21 to have on Ms. Laflamme? 22 Probably none. MR. NEEDLEMAN:

MR. IACOPINO: Okay.

23

24

MR. NEEDLEMAN: And, I say that because {SEC 2009-02} [Prehearing conference] {08-20-10}

I expect we will reach agreement on a stipulation and 1 there will be nothing left to dispute between us. 2 MR. IACOPINO: Okay. I'm sorry, Peter. 3 4 MR. ROTH: I was looking for a clarification. And, that is Ms. Laflamme will be subject 5 to cross-examination regardless of whether a complete 6 7 agreement is reached, is that correct? 8 MR. SCHNIPPER: We certainly intend to make her available, yes. 9 MR. IACOPINO: Well, if she's not, then, 10 obviously, a motion to strike her prefiled testimony would 11 be in order. And, I don't know how the City would sponsor 12 the agreement. Although, clearly, somebody from the 13 Applicant could say "we're a party to this agreement." 14 15 MR. ROTH: Yes, I was just -- maybe I was only hearing --16 17 MR. IACOPINO: I can say this --(Multiple parties speaking at the same 18 19 time.) 20 MR. IACOPINO: I'm sorry. I think the 21 Committee is going to want to hear from her. 22 MR. SCHNIPPER: I would hope so. 23 MR. IACOPINO: Just so you know. Okay. MR. SCHNIPPER: And, obviously, she's 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

available to everyone. What I'm saying is that, assuming 1 2 that we are in total agreement with the Applicant, we don't feel that we will need to elicit anything more than 3 her prefiled testimony and her affirmation that the City 4 5 has agreed to the stipulations that we're putting in as an exhibit. At that point, anyone who has questions. 6 7 MR. ROTH: Okay. Yes. I understand. 8 Thirty minutes. 9 MR. IACOPINO: Okay. And, Jim, you just can't give me a very good estimate, because you don't know 10 what's in the agreement? 11 12 MR. RODIER: Thirty minutes. Say, you know, we would probably just want to clarify or understand 13 what's in there. So, at most, 30 minutes. 14 15 MR. IACOPINO: Okay. MR. SCHNIPPER: And, let me just say 16 17 that, in the event that we reach a negotiated resolution of the outstanding issues at any point in the weekend, we 18 can send right to the service list the new exhibit so that 19 people have as much time as possible before Monday morning 20 21 to familiarize themselves. 22 MR. IACOPINO: That would be helpful. 23 But please make sure that she knows that we are requiring her to testify, regardless of whether there's a 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

41 stipulation or not. 1 2 MR. SCHNIPPER: Oh, yes. She shows that. 3 4 MR. IACOPINO: Okay. 5 MR. SCHNIPPER: She's prepared. And, that's, you know, just because Tuesday works better for 6 7 her, that's the only preference. But she's fully engaged 8 in the process and ready to appear for all questions. MR. IACOPINO: Well, based on my -- so 9 far what has been stated by people, in terms of what they 10 11 expect the timing to go, my guess is that we will not be done with the Applicant's witnesses until sometime Tuesday 12 afternoon. So, that -- because I basically count about 11 13 14 hours' worth of testimony there, so probably not be till 15 Tuesday afternoon. Although, I don't want you necessarily to plan on that, because I don't know what's going to 16 17 happen either. So, --I understand. MR. SCHNIPPER: 18 19 MR. IACOPINO: But just where we're at 20 21 MR. SCHNIPPER: I'm just indicating a 22 preference here. 23 MR. IACOPINO: And, then, depending upon how much time is spent with Ms. Laflamme on Tuesday, 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

assuming that's when we get to her, then I believe that we 1 would start either right up on Tuesday with the Clean 2 Power witnesses, or maybe Wednesday morning. So, just so 3 that everybody has an idea. And, of course, as we all 4 know, is that these things usually take longer, rather 5 than less time than what people estimate. So, my guess is 6 7 we're going to be well into Wednesday, maybe even Thursday morning, before the end of this, end of the witness 8 testimony occurs, at least based upon the estimates that 9 everybody has given here today. 10 11 Are there any other issues about the order of witnesses that -- go ahead, Barry. 12 MR. NEEDLEMAN: Sort of. Is the 13 Committee expecting opening statements from the parties? 14 15 MR. IACOPINO: No. 16 MR. NEEDLEMAN: And, then, Peter had raised a question, which I don't think we addressed, about 17 witnesses trying to summarize their testimony. It's --18 19 MR. IACOPINO: I think you'll have 20 leeway, in terms of when you put your witnesses up, I 21 think you'll have some leeway. I don't think, however, 22 that the Chair is going to allow you to simply, you know, 23 start going through the whole testimony. You know, I know what they would prefer, is that the written testimony be 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

as comprehensive as possible, and all you do is simply 1 have them sponsor it, and then tender them for examination 2 by the other parties. But it's -- there has been leeway 3 granted. Understanding that things change over the 4 process and it's, you know, it's -- sometimes it's 5 impossible to amend your prefiled testimony every time 6 7 there's some minor -- minor change. So, you'll be given I assumed, when you said "two hours", you 8 some leeway. meant for all five of those witnesses. So, that's roughly 9 a half an hour -- well, it's a little less than a hour an 10 hour each. So, that's not an unreasonable amount of time, 11 I don't think. 12

That sounds like a lot to me. 13 MR. ROTH: 14 I mean, typically, I've seen them, you know, they come in and they say, you know, "what is the purpose of your 15 16 testimony?" They say that for like one minute or two 17 minutes. Ask "is there anything you want to change?" That's another two minutes. And, from the witness taking 18 the chair, to the first cross-examination, is like three 19 to five minutes at most. 20

21 MR. IACOPINO: Yes. But, if he takes 22 ten minutes for each witness, that's 50 minutes. Okay? 23 And, that's without any of -- and that's if he just went 24 straight through. Okay? So, I mean, I don't think -- and

{SEC 2009-02} [Prehearing conference] {08-20-10}

then I'd rather be conservative than non-conservative at 1 2 this point. So, --MR. NEEDLEMAN: Well, and it raises 3 another issue, too. And, I don't feel strongly about how 4 we do this, but that's, you know, the idea of getting our 5 exhibits moved in. I had thought it would be more helpful 6 7 up front to identify our exhibits and tie them to witnesses and move them in at that point. I've also done 8 it where we just leave all our exhibits until the end, and 9 then we make a motion to move them all in. We can do 10 that, too. 11 MR. IACOPINO: And, actually, and the 12 last thing I would do today, when we're actually talking 13 about the exhibits, we may come to some better 14 understanding --15 16 MR. NEEDLEMAN: Okay. 17 MR. IACOPINO: -- as to how that may be Because, if there's a whole bunch of exhibits that 18 done. 19 nobody is objecting to, I have no problem, and I know that 20 my Committee will have no problem, with either at the 21 beginning or the end you just say "These are the 22 unobjected to exhibits", you know, and they're all moved 23 in at once. If there are exhibits that, and this 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

goes for all the parties, obviously, if there are exhibits 1 that people are objecting to, hopefully, we'll know what 2 they are before the end of this meeting today, and we can 3 deal with how to deal with those objections. 4 Understanding that this is an administrative hearing, the 5 rules of evidence don't apply, and, you know, there's got 6 7 to be a good reason not to permit the introduction of 8 evidence.

MR. NEEDLEMAN: Well, and then the 9 answer to your question, Peter, is, if I'm not going to go 10 11 through those exhibits up front, that will significantly shorten those introductions. And, if the Committee says 12 that it's going to be helpful to have a witness spend two 13 to three minutes summarizing their testimony, we'll do 14 that. And, if the Committee doesn't want to hear that, we 15 16 won't do that.

17 MR. IACOPINO: I think the one thing the Committee does want you to ask, and wants all of the 18 19 parties to ask, is "Are there any changes that you need to 20 make in this testimony?" Okay? And, obviously, just for 21 your all, you know, safety in the record, especially where 22 there's been amendments to testimony, I think you might 23 want to sort of in the record maybe give an explanation as to why did this testimony change. That's up to you, but 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

I'm just thinking, as a lawyer, I might want that in the 1 2 record. MR. ROTH: And, I don't have any problem 3 with that. 4 5 MR. IACOPINO: Yes. So, that there's, you know, so you've got reasons in the record. 6 7 MR. SCHNIPPER: Could I just say one thing? When I think about the direction examination of 8 our witness, you know, I'm probably going to want to take 9 10 her through the contents of the stipulation, at least a 11 little bit, to note the way that they correspond with, you know, what the City sees its statutory role, and that I 12 hope will assist the Counsel for the Public and CPD in 13 their cross-examination. 14 That will be fine. 15 MR. ROTH: We've 16 done that before. 17 MR. IACOPINO: You don't have any problem with that, do you, Mr. Rodier? 18 19 MR. RODIER: Well, no. I mean, prefiled 20 testimony --21 MR. SCHNIPPER: I don't --22 MR. RODIER: No, I'm just saying that's 23 different, you only need a few minutes, I agree. But something that's new and material like this, then, when 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

she gets on the stand, I think going -- walking through it 1 2 is good. MR. SCHNIPPER: That's the way I 3 Yes. 4 feel, like, when you guys cross her on it, we'll have already kind of laid out, you know, --5 MR. RODIER: 6 Yes. 7 MR. SCHNIPPER: -- why the City thinks 8 it is an appropriate condition. MR. IACOPINO: So, to sort of summarize 9 where we're at with that issue then about the initial sort 10 11 of introduction of the witnesses, is that, by the end of today, we'll have a better idea on what exhibits are going 12 to be in dispute, if any. And, I would -- I would prefer 13 that, if the parties are all in agreement that there's not 14 15 really disputes about the admissibility, not that you 16 agree with the exhibits, but that the exhibits are 17 admissible, that you just move them all in right at the beginning of the hearing or perhaps right after you --18 just before you tender your -- each set of witnesses, 19 20 maybe even before you start. It's up --21 MR. NEEDLEMAN: Sure. 22 MR. IACOPINO: Depending upon how much 23 agreement there is in the room. Because, as a practical matter, if there's agreement, I don't think anybody on the 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

Committee is going to disagree with the parties on how the 1 2 case should be presented. And, my expectation is 3 MR. NEEDLEMAN: 4 that we would probably resolve that by Monday morning. I'm not sure if --5 (Court reporter interruption.) 6 7 MR. RODIER: Sorry, Steve. 8 MR. NEEDLEMAN: I have no problem with 9 us ultimately resolving that exhibit issue Monday, if we have to. I realize we're going to be giving people a 10 bunch of exhibits and they will need time to look at them. 11 I don't expect most of them will turn into any surprises. 12 But we don't have to reach agreement now on objections. 13 MR. IACOPINO: Am I correct, though, in 14 understanding that most of these exhibits have already 15 16 been distributed? 17 MR. NEEDLEMAN: Yes. I mean, there's --18 yes. 19 MR. IACOPINO: Okay. MS. VAUGHN: Almost all of them. 20 21 MR. IACOPINO: And, the only reason why 22 there's that big crate sitting behind you is because I 23 asked to have individual sets for each of the Committee 24 members?

{SEC 2009-02} [Prehearing conference] {08-20-10}

1 MR. NEEDLEMAN: Correct. And, because 2 there are parties that we thought would be here that aren't. 3 So, --4 MR. IACOPINO: Okay. Okay. And, I'm sorry for any inconvenience that that causes, but I think, 5 in the long run, it will be more convenient for everybody, 6 7 because we will not be spending precious time passing one document around from Committee member to Committee member, 8 9 and then have them coming back and saying "oh, you know, wait, I need that again." That's the whole idea. 10 Hopefully, it works well. 11 Is there any other discussion about the 12 order of examination or the time needed for each of the 13 witnesses or the order of the case in chief that we're 14 going to use? Anybody have any questions or any concerns 15 or anything else they want to raise about that particular 16 17 issue? (No verbal response) 18 MR. IACOPINO: All right. Well, the 19 20 next issue is how we are going to deal with the -- there's 21 a series of documents that have been treated 22 confidentially in this docket. Some have been treated 23 confidentially in that they are available only to the Committee members and Counsel for the Public. 24 Some have

{SEC 2009-02} [Prehearing conference] {08-20-10}

1 been treated confidentially that they are disclosable to the parties, as well as the Committee and Counsel for the 2 Public. That's my understanding of where we are at with 3 the confidential documents. 4 5 MR. NEEDLEMAN: One correction. That I think, actually, there are two sets. There is one set 6 7 that is confidential with respect to the Committee, Public Counsel, and the City. 8 9 MR. IACOPINO: Okay. MR. NEEDLEMAN: And, then, there is a 10 second set, which is confidential with respect to everyone 11 at this table. 12 MR. IACOPINO: Okay. 13 MR. NEEDLEMAN: Is that right? 14 15 MR. RODIER: Right. MR. IACOPINO: Well, I did not 16 17 understand that. I understood that the Power Purchase 18 Agreement --19 MR. RODIER: He's talking about the 20 System Impact Statement. 21 MR. NEEDLEMAN: I'm talking about the 22 ISO documents. 23 MR. IACOPINO: The ISO documents were only, I mean, as I read the order, were only -- the City 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

1 wasn't included in that. 2 MR. SCHNIPPER: No, we're in -- we had, 3 the attorneys, has only access to the Applicant's ownership structure documents. 4 5 MR. NEEDLEMAN: Okay. MR. IACOPINO: I don't think that that's 6 7 such a big deal. If it turns out you want the City to have access to the SIS, I don't think that that is going 8 to be a big deal. 9 MR. SCHNIPPER: 10 Okay. 11 MR. IACOPINO: I asked folks, if you have exhibits, and, actually, even Clean Power still has 12 one testimony that's still -- Mr. Gabler's testimony is 13 still subject to protective order, because of its 14 reference to the SIS. 15 16 MR. RODIER: Well, let me chime in at There is information on the ISO website. 17 this point. And, when you see our exhibit list, that we were going to 18 try to mark it as an exhibit list, it's publicly 19 available. But I think the information that Gabler 20 21 redacted from his testimony is now public. Am I close on 22 that, Bill, or --23 It's not public. MR. GABLER: 24 MR. RODIER: Okay. {SEC 2009-02} [Prehearing conference] {08-20-10}

1 MR. IACOPINO: I guess you're not close. It's available to me 2 MR. GABLER: because I've got the security clearance to access it. 3 4 MR. RODIER: Okay. What about the 5 transmission -- the Reliability Committee Agenda Report? MR. GABLER: The agenda is public 6 7 information. The actual details of what's discussed, the substantive evidence that was discussed in that agenda 8 9 item, --MR. RODIER: 10 Okay. 11 MR. GABLER: -- is CEI also. MR. RODIER: Okay. So, I'm all wet. 12 One thing that, while I think of it, one thing that would 13 really help, could we get a copy of the System Impact 14 15 Study now, at this point, so that Mr. Gabler can look at 16 it, so that we can -- he's going to be looking for some 17 specific things, it may help us resolve some of these other issues. If you're going to give it to us later, can 18 19 you give it to us now? 20 MR. IACOPINO: Do you want it right -- I 21 have it handy, if you -- if there's no objection? 22 MS. VAUGHN: I mean, I have --23 Yes, would you just pull MR. RODIER: 24 one out?

{SEC 2009-02} [Prehearing conference] {08-20-10}

1 MR. IACOPINO: And, this is, just so 2 that we're all, I mean, we can discuss the dates of these reports, right? 3 4 MR. GABLER: Oh, yes. MR. IACOPINO: Okay. Just so we're all 5 talking about the same document, the last document we have 6 7 is the SIS from May 21, 2010, is that correct? MR. NEEDLEMAN: Yes, I believe so. 8 9 MR. IACOPINO: Okav. MR. RODIER: 10 Yes. 11 MR. IACOPINO: All right. 12 MR. GABLER: And, the biggest difference, of course, is that the publicly available, or 13 the available one on the ISO website is dated April 26th. 14 And, so, that's the only one I've been able to access is 15 16 the April 26 version. 17 MR. IACOPINO: Okay. And, I haven't gone, I mean, I don't know what other parties have done, I 18 know I haven't gone to the website, so I don't know what 19 20 the April 26 one says, I do have the May 21, though. 21 MR. GABLER: And, as of yesterday, the 22 NEPOOL or the ISO website still had only posted the April 23 26 edition. MR. NEEDLEMAN: And, that's, maybe I'm 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

still confused, but that's what I was talking about 1 before, it was our intention that CPD should have access 2 to that. 3 4 MR. RODIER: Right. Oh, we know that. That's why, you know, we were just kind of wishing we --5 MR. IACOPINO: I thought they -- I 6 7 actually --8 (Court reporter interruption - multiple 9 parties speaking at the same time.) MR. IACOPINO: One at a time. 10 Sorry. 11 MR. RODIER: Sorry. 12 MR. IACOPINO: My understanding was that, because you guys are in the queue, you get a copy of 13 it anyway, you're on the same transmission line. 14 15 MR. RODIER: Correct. That's what we 16 thought. 17 MR. IACOPINO: But, if you don't have it yet, then perhaps they can give you that copy. 18 MR. GABLER: We'll get it --19 20 MR. RODIER: Yes. 21 MR. IACOPINO: So, because there is 22 several of these documents that are confidential and 23 subject to confidentiality orders, during the hearing, if there is going to be reference to those particular 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

documents, either in direct or cross-examination, it is 1 going to be incumbent upon the party who is doing the 2 questioning to advise the Committee, advise the Chairman 3 that "I intend to ask questions now about a, you know, a 4 document that is not subject to public disclosure." At 5 which point, we will probably ask the public to leave the 6 7 There will be minutes, there will be, obviously, a room. transcript will continue to be kept, and we will proceed. 8 We've done this in several other proceedings. But, for 9 10 the convenience of everybody, what we would really like to 11 do is keep all of those, keep sort of that section together, so that we do not need to do it three or four 12 times during the course of the day. So, what I'm looking 13 14 for is, if the parties believe that they are capable of 15 saving all of this stuff that may rely on documents that 16 are subject to protective order for a particular time, and 17 dealing with that sort of almost as a separate panel, if you will, but not necessarily a panel, but in one chunk of 18 19 time.

20 MR. NEEDLEMAN: Well, I will say, from 21 my perspective, that sounds fine. The vast majority of 22 them will be documents that Mike Bartoszek will have to 23 deal with, so that will come a little bit later in the 24 process. And, the remainder will be ones that Ray has to

{SEC 2009-02} [Prehearing conference] {08-20-10}

deal with, and that will come at the end of the process. 1 2 So, I think the way the witnesses are set up, it lends itself for confidential --3 MR. IACOPINO: Now, I don't know if any 4 of the other parties have thought about this, but actually 5 I'm encouraged to hear that. So, you don't think, for 6 7 instance, with the first panel you'll have it, so it could be that we just need to do it twice, once for each of 8 those witnesses? 9 MR. NEEDLEMAN: Well, I'll ask Kate to 10 correct me, but nothing is coming to mind now with respect 11 to that first group of three, where they're going to have 12 to talk about any of these confidential documents. 13 14 MR. IACOPINO: And, are you comfortable 15 that you can segregate the material, so that we can just 16 do that at the end of -- at the end of your -- when you would normally be done with each of these witnesses? 17 It's going to be really 18 MR. NEEDLEMAN: 19 easy for me. I mean, I'm going to have, for example, Mike 20 Bartoszek adopt his testimony, probably talk about a 21 couple of changes, and then the questions are going to 22 start. So, I think it will be more incumbent upon the 23 questioners to figure out how they carve out the confidential pieces from the non-confidential pieces. 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

1 MR. IACOPINO: What's Public Counsel think about the ease of doing this? 2 MR. ROTH: Yes. We've always done it 3 that way before, as I recall. And, I think it should work 4 5 here again. MR. IACOPINO: And, Jim, you will 6 7 actually, even though there are some documents that you will be asked to leave the room for, there are other 8 documents that you've got. You're all right with that 9 process? 10 11 MR. RODIER: Sure. MR. IACOPINO: Okay. All right. 12 And, I take it, anybody who is going to submit documents that are 13 14 subject to or exhibits that are subject to the 15 confidentiality orders, they're marked as "confidential", 16 so that my Committee members don't wind up leaving them 17 out on their desks or whatever? MR. NEEDLEMAN: Yes, for us. 18 And, I 19 think we've also segregated them. 20 MS. VAUGHN: They're in a separate 21 binder from the others, and there's two disks. 22 MR. IACOPINO: Two disks. 23 MS. VAUGHN: One is confidential, one is 24 not. {SEC 2009-02} [Prehearing conference] {08-20-10}

1 MR. IACOPINO: Okay. All right. The next -- anybody else need to discuss anything about 2 confidential documents? 3 (No verbal response) 4 MR. IACOPINO: All right. 5 The next thing I had on my agenda was a discussion regarding 6 7 briefing or a post hearing memoranda, and also that sort of ties in with Number 4, the statutory time frames. 8 Once we complete this, this adjudicatory hearing, the Committee 9 has to schedule public deliberations and get an order out, 10 which is pretty much, we're going to have about 30 days to 11 do that under the time frame set forth in RSA 162-H. 12 So, with that in mind, I wanted to 13 discuss what the parties were thinking about, any kind of 14 15 briefing? And, let me throw it out first to the Applicant. 16 I'll do it the same way 17 MR. NEEDLEMAN: I've done it before. If we get to the end of the process, 18 and the Committee thinks there are issues that it would 19 20 like briefed that will be helpful for it to decide, we'll 21 brief it. I'm not, at this point, anticipating asking for 22 the right to brief, if the Committee doesn't want it. 23 MR. IACOPINO: Counsel for the Public? In the past, it's been 24 MR. ROTH: {SEC 2009-02} [Prehearing conference] {08-20-10}

something that provides the parties an opportunity to 1 summarize their view of the evidence, in a way that I 2 think is helpful. And, more importantly, present 3 conditions that they think ought to be adopted by the 4 Committee, based upon their review of the evidence. 5 So, I guess I would support there being briefing. 6 Now, one of the -- you know, the 7 never-ending problem with briefing is coming up against 8 the decision date and trying to get the transcripts out of 9 Steve's fingers in a timely way that doesn't drive him 10 over the bridge. And, I notice that the -- well, I looked 11 at the calendar, and the time on this seemed unusually 12 short for that period. It just seemed like it's really 13 crammed there. 14 15 MR. IACOPINO: It is, because of the timing, where we wound up over the summer for most of the 16 17 intervening time. MR. ROTH: 18 Yes. 19 MR. IACOPINO: But, also, one of the 20 problems that we have, is not the cause of anybody in this 21 room, it's the way the statute is designed, is it suggests 22 that you have the adjudicatory hearings after the final 23 State agency reports are due. And, they, of course, aren't due until sixty days before the end of the time 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

And, the statute says that you have to hold your 1 frame. 2 MR. ROTH: 3 Right. 4 MR. IACOPINO: -- you're to commence 5 your adjudicatory hearings within 30 days of that. Which, if you wait till the 30th day, which we have pretty much 6 7 done, not because we wanted to, but because of the fact that it's August, and we had schedules we needed to 8 address on the Committee, it does leave us with roughly a 9 month. It is shorter than a traditional plant, or any of 10 the older renewables that we did, such as Lempster, 11 because we weren't under --12 13 The shortened time frame. MR. ROTH: 14 MR. IACOPINO: Right, the shortened time frame, and worse than the shortened time frame is the 15 16 benchmarks within the time frame. 17 MR. ROTH: Right. So, in a way, the time frame is not working well with the statutory 18 19 benchmarks, and maybe that ought to be addressed. 20 MR. IACOPINO: Yes, but that's --21 MR. ROTH: Maybe what we can do in this 22 case is, rather than have briefs and, you know, rush 23 through transcripts, is simply have a deadline after the hearing closes for parties to submit any conditions that 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

that they wished to have the Committee consider. 1 2 MR. IACOPINO: Understand, I'm not trying to discourage anybody from briefing anything. 3 Oh, I understand that. I'm 4 MR. ROTH: just trying to be practical myself, --5 MR. IACOPINO: If you want to brief 6 7 something, you should. 8 MR. ROTH: -- because I'm not crazy about writing a brief either, but getting the conditions 9 out there is, I think, valuable. So, that's why I suggest 10 forgoing briefing and simply a memorandum of conditions. 11 MR. NEEDLEMAN: I have two thoughts on 12 that. Well, first of all, are you anticipating closing 13 statements, because that can help with the summary of the 14 evidence? 15 MR. IACOPINO: I think you will be 16 17 permitted relatively brief closing statements by the Chairman. 18 19 MR. NEEDLEMAN: Okay. On the issue of 20 the conditions, it's understandable that the process could 21 lead to people concluding they would like to propose 22 conditions. I just want to make sure that, if that 23 happens, there is some opportunity for a response to that. And, I realize that those deadlines don't help very much 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

with that. But I just don't want to be in a position 1 2 where, ten days after the hearings close, we see proposed conditions for the first time and have no chance to say 3 anything about them, before the Committee decides whether 4 or not to include them in the certificate. 5 MR. IACOPINO: Well, I mean, that's a 6 7 fair --Yes, it would be nice if they 8 MR. ROTH: have an opportunity to say that they agreed with all of 9 them. 10 11 MR. IACOPINO: Well, it would nice, if you guys are going to have conditions, if you'd all get 12 together over the weekend and agree on them all and just 13 14 present them, too. 15 MR. SCHNIPPER: Well, we've been working on them --16 17 MR. NEEDLEMAN: We're doing that with the City. 18 19 MR. IACOPINO: Well, --20 MR. NEEDLEMAN: I recognize that the 21 process can produce issues. And, what I would hope is, as 22 that's happening, or immediately afterwards, we can try to 23 work together and get some agreement on that. 24 MR. IACOPINO: I'm just trying to look {SEC 2009-02} [Prehearing conference] {08-20-10}

1 at the calendar for a minute here.

That said, I mean, if we set 2 MR. ROTH: a date, say, you know, ten days after the close of the 3 hearing, I wouldn't -- I think it would be a good idea for 4 5 us to sit down and try to hash through any conditions that we're thinking about proposing, and see if we could 6 7 massage them or get you to agree to them. 8 MR. NEEDLEMAN: Yes. I think that would, even if 9 MR. ROTH: you put that in sort of the order to say "the parties will 10 meet to discuss any proposed conditions." 11 12 MR. RODIER: I've got something to say, when you're ready, Mike. 13 14 MR. IACOPINO: Oh. Go ahead. Go ahead. MR. RODIER: Well, this is a very 15 16 important issue to CPD. And, we're very mindful of 17 everything Attorney Iacopino just said about why the procedural schedule is the way it is. But we really need 18 to insist on having an opportunity to put in a post 19 20 hearing memorandum, because of how vital this matter is to 21 CPD. And, we're going to need a transcript in order to do 22 that. So, that's what we have to say. 23 Now, what does that mean, in terms of how much time we need, or is the Committee going to be 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

able to get a decision out by December [September?] 23rd? 1 2 I would say, under the circumstances here, given that the Committee has got the discretion to, you know, go beyond 3 the nine months, if they, for good cause, that they might 4 do that. Because it's not as if, given what's now going 5 on over at the PUC, it's not as if construction is going 6 7 to start -- be able to start for quite a while, let me just say that. So, I don't see that it's going to hold 8 anything up at all, if the Commission takes another three 9 weeks or a month to issue its decision. But, in any 10 11 event, that's not for me to decide. I'm just saying there is -- there is that, wanted to make that point that there 12 is a basis here for extending that September 23rd date for 13 a Commission order. And, that we need the time to put in 14 a post hearing memorandum. And, I'm not going to do it 15 16 without the benefit of a transcript.

17 MR. NEEDLEMAN: Well, I want to say, 18 with respect to that, that we would strongly oppose any delay in the Committee issuing its decision under the 19 20 statutory timetable. And, I've been involved in plenty of proceedings, here and elsewhere, where people are under 21 22 tight deadlines, and they meet them by working hard and getting them in. And, if, Jim, you need to get a brief 23 in, so be it. You know, get it in, and let's set a 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

1 deadline, and we'll have a tight deadline to respond to it, and the Committee will have what it needs to make its 2 decision. 3 Then, I need you to 4 MR. RODIER: Okay. 5 arrange with the court reporter to get us an expedited transcript, overnight. 6 7 MR. NEEDLEMAN: That's not for me, 8 that's for the court reporter and you. I mean, I'm happy to have access to transcripts that anyone else has access 9 10 to. 11 (Brief off-the-record discussion ensued regarding availability of transcripts.) 12 MR. IACOPINO: If we conclude the 13 14 hearing next week -- let me start there. If, for some 15 reason this hearing does not conclude next week, then, obviously, everything that I say is not going to mean 16 17 anything. But, if we were to conclude the hearing next week, I believe what Mr. Patnaude is saying is that the 18 last of the transcripts could be done by the following 19 20 Friday, which is September 3rd. I know that my Committee, 21 dates that we are looking at right now for deliberations 22 are the week after that, and the week following that, 23 which is the week of September 6 and the week of September 12th. And, so, that fits --24

{SEC 2009-02} [Prehearing conference] {08-20-10}

1 MR. ROTH: Well, the brief would have to be in before the deliberations. 2 MR. IACOPINO: Right. So that you file 3 4 a brief by the 10th, if you were to have the transcripts by roughly the 3rd? 5 MR. RODIER: Well, that's pretty quick. 6 7 I was thinking the transcripts were going to be more like, you know, two or three weeks, which has been my 8 experience. But, if we're going to get the transcripts by 9 September 3rd, that's a little bit different. Then, in 10 11 the hearing -- in the Hearing Officer's view here, what would be, under those circumstances, your view of what a 12 reasonable number of days would be to get in a post trial 13 memorandum, assuming we get the last one by September 3rd? 14 15 MR. IACOPINO: I would say one week, the following Friday, which is September 10th. 16 17 MR. RODIER: So, is September 3rd on a Friday, evidently? 18 19 MR. IACOPINO: September 3rd is a Friday, yes. Which means I would have to schedule 20 21 deliberations for the week of the 13th. 22 MR. NEEDLEMAN: And, Mike, with that 23 schedule, it gives us no opportunity to respond. MR. IACOPINO: Right. 24 That means that {SEC 2009-02} [Prehearing conference] {08-20-10}

you would have to probably reply by like Monday, the 13th. 1 MR. NEEDLEMAN: Well, couldn't we --2 couldn't we shorten the post trial brief, to say that 3 Wednesday, and let us respond by that Monday, so we each 4 have five days, and then it will be in the Committee's 5 hands to deliberate that week? I mean, I understand Jim 6 7 wants the right to do it, and I'm not going to dispute his right to do it, but they are a limited intervenor, and 8 there are only two topics that they need to cover in the 9 hearing. 10 11 MR. IACOPINO: Can you do it by September 1st, the Wednesday, if you were to get -- I'm 12 not "September 1st", September 8th, the Wednesday? 13 14 MR. RODIER: No. No. Because this 15 isn't in a vacuum here. We're going to have, you know, 16 this CPD matter is a very extended family of issues. 17 We've got to file a brief at FERC, we've got PPA proceedings that are going to take my time over at the 18 19 PUC. I need a week, from September 3rd, no question about 20 And, even at that, it's -- I'm concerned about not it. 21 doing a good job for my client. It's not easy. 22 MR. IACOPINO: I know, but one --23 MR. RODIER: Everybody here that's done them knows, it takes time. 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

1 MR. IACOPINO: Yes, but one point is, I mean, one of the benefits of the way that we do these 2 proceedings is you have all the direct testimony already, 3 you'll have all the exhibits. In fact, as I understand 4 it, you probably have all the exhibits already, in the 5 things that have been filed during the course of the 6 7 pendency of these proceedings. So that, in terms of what you put into your brief, I mean, I know a large part of it 8 is going back and, you know, addressing, "okay, well, 9 10 where did I get this from " and making the appropriate 11 references to it. But a lot of that is going to be to exhibits that you already have. You already have all the 12 direct testimony of all the witnesses. So that, really, 13 14 the only thing that the transcript is going to include, 15 that you don't already have, for the most part, is 16 cross-examination, and any additional exhibits that have 17 come by the board, such as the stipulation with the City of Berlin. And, I mean, I'm not going to -- usually, in 18 these cases, there's something that somebody forgot to 19 mark beforehand and we have to mark, so there will 20 21 probably be some number of exhibits that are new. But 22 those things already exist and they're already available 23 to you.

> MR. RODIER: Yes, I know. But where I'm {SEC 2009-02} [Prehearing conference] {08-20-10}

24

coming there is cross-examination. We're counting on 1 2 cross-examination. MR. NEEDLEMAN: Well, our witnesses will 3 4 be going early in the process. So, presumably, those transcripts might be available sooner. 5 MR. IACOPINO: Well, I will leave it, I 6 mean, I'll talk to the Chairman about it, about how he 7 wants to do it. I will talk with him both about the idea 8 of -- well, I'll talk to him about three things. First, 9 the overall, just the whole briefing schedule, obviously. 10 And, I will -- you know, and you'll get a chance during 11 the course of the hearings to express your opinion to him. 12 13 MR. RODIER: Sure. MR. IACOPINO: I'll talk with him about 14 15 Public Counsel's suggestion of, you know, just the 16 deadline for submission of conditions and a time to 17 respond. And -- oh, the timing was the third, the third 18 issue. MR. RODIER: Well, let me add this. 19 Ι 20 hope we're getting the sense here, we're going to try to 21 do this, but -- and I don't even want to call it a 22 "brief", because it's not going to be a comprehensive 23 brief, it's going to be a post trial memoranda. MR. IACOPINO: Uh-huh. 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

1 MR. RODIER: And, we're asking for a 2 week to prepare that. MR. IACOPINO: From the time that you 3 have the transcripts? 4 5 MR. RODIER: Right. MR. IACOPINO: Yes. No, I understand 6 7 I'm not going to make the decision. that. MR. RODIER: I know that. 8 MR. IACOPINO: I'll alert the 9 Chairperson that it's going to be an issue. I'm going to 10 11 recommend to him that he deals with it on Monday, so that everybody knows in advance how much time they're going to 12 have. And, you know, we'll hopefully take care of it as a 13 housekeeping matter on Monday, and, you know, he'll make 14 15 the final decision, and you all will know. I know it's a 16 very touchy area. And, unfortunately, it's one that, you 17 know, as much as it sounds easy to just say, you know, "the Committee should extend its own time to deliver an 18 opinion", there's a statutory standard for what the 19 Committee would have to find in order to do that. And, 20 21 that standard is not "well, they're not going to start 22 construction within the next couple of months anyway." 23 That standard deals with the public interest, as opposed to whether or not there's a -- whether or not the 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

1 construction season is in effect. So -- and, that's 2 something I can't decide, because they're the people, the Committee are the people who are vested with determining 3 what's in the public interest. So, we're going to have to 4 let them decide on that issue. I understand that you're 5 going to suggest that there should be an extension of the 6 7 statutory time frame. 8 MR. RODIER: No, I didn't say I was 9 going to suggest that to the Committee Monday. MR. IACOPINO: Well, no, I think that --10 11 MR. RODIER: I said that within this 12 room. I think that everybody 13 MR. IACOPINO: 14 should probably be prepared for such a request, because we 15 are up against a tight time frame. If I were preparing 16 this as a trial or as an administrative hearing from an 17 advocacy position, I would be prepared to deal with that. MR. RODIER: 18 Right. MR. IACOPINO: And, I think everybody 19 20 should be prepared to deal it, because I'm sure that it's 21 something that is likely to come up, given the tight time 22 frame that we have. 23 MR. RODIER: Well, let me --MR. IACOPINO: And, it's come up in 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

several other proceedings as well. So, from experience, 1 we know that it arises. 2 MR. RODIER: Let me just say this. 3 We're very concerned of the short amount of time that the 4 Committee has to make a decision here is going to be 5 harmful to CPD's interests. Because the paramount 6 7 objective is going to be to boot something out the door. 8 And, --MR. IACOPINO: Well, where with the 9 Applicant has the burden of proof --10 11 MR. RODIER: And, that is of concern to 12 us. MR. IACOPINO: Where the Applicant has 13 the burden of proof, I don't know who that should be a 14 15 bigger concern to. 16 MR. RODIER: No, that's a good point. 17 That's a good point. MR. IACOPINO: But, nonetheless, I'm not 18 19 the person who's going to make a decision. So, I can 20 assure you all that the Committee is going to deliberate 21 on every issue, even those that are not in dispute, 22 because that's the way they have always done things. 23 Those deliberations will be in public. I've asked everybody to get full sets of exhibits here today so that 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

when they do come to deliberate, everybody is -- all of my 1 Committee members are fully aware of what's in the record. 2 And, that's why we've, you know, asked to do that, so that 3 we can try to do our best under what the statute provides 4 And, if we can't, then we can't. That's a different 5 us. But, you know, I know that the Committee is going 6 issue. 7 to do its best to comply with the statute.

Sure.

9 MR. IACOPINO: So, anyway, I will leave 10 the issue of the timing of briefing, for lack of a better 11 word, or post hearing memoranda, to be addressed as a 12 housekeeping matter with the presiding officer. And, I'm 13 going to recommend that he deal with it right on Monday, 14 so that everybody has fair warning.

MR. RODIER:

8

The next issue is identification 15 Okav. 16 and premarking of exhibits. However, is anybody -- are 17 there any loose ends that I haven't addressed, that people want to address before we do that, because I think that 18 may get a little complicated? And, what I'm going to 19 20 propose to do is to go off the record while we go through 21 the exhibits, so that Mr. Patnaude can move around freely 22 and can see what the exhibits are, so that he has an idea 23 of what he's dealing with during the course of the proceedings as well. And, then, maybe go back on the 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

record, once we have them all, just to put in the list, so 1 that we know we have a record of what the parties are 2 anticipating calling. I'm sorry, Peter, did you have a 3 loose end? 4 5 MR. ROTH: This gentleman here has a loose end. 6 7 MR. IACOPINO: Why don't you identify 8 yourself and tell me what your loose end is. MR. FORTUNE: Yes. 9 I'm William Fortune, Industrial Consultants, Incorporated. And, we have a 10 11 poly-generation design that is far superior to anything that anybody else has proposed. And, it's economically 12 viable, without any government subsidies. And, I know 13 we're coming in late. And, I had a Petition to Intervene, 14 15 maybe it's untimely at this point. And, what I want to raise, and I also sent a letter in to object to the 16 17 permitting of this plant. MR. IACOPINO: Yes. Your letter was 18 19 part of the public comment, that was accepted, and we 20 accept public comment in these proceedings right up to the 21 day that an order is issued. 22 MR. FORTUNE: Yes. 23 MR. IACOPINO: What you're telling me 24 now, though, is that you want to intervene as a party. {SEC 2009-02} [Prehearing conference] {08-20-10}

You, first of all, you have to file a written Motion to 1 You have one there? 2 Intervene. MR. FORTUNE: 3 Yes. 4 MR. IACOPINO: Okay. And, it is untimely. There was an intervention deadline set many, 5 many weeks ago. But, out of fairness, the Administrative 6 7 Procedures Act actually allows intervention up to three days before. So, I will take that before we leave. 8 Ι can't promise you any results on it. I will have the 9 presiding officer look at it. But, if I understand 10 correctly, you have a design. Have you tried to talk to 11 the folks at Laidlaw, to their technical people, about 12 selling them your design or selling them the unit that 13 you've designed? 14 15 MR. FORTUNE: No, we haven't talked to 16 Laidlaw at this point. We have tried to deal with 17 Bloomfield. And, he was -- he was part of our proposal at one time, but he backed out. 18 19 MR. IACOPINO: Well, do you understand 20 that the Committee really doesn't have the sort of 21 authority to just say "well, you have to use a particular" 22 23 MR. FORTUNE: I understand that. MR. IACOPINO: -- "a particular design"? 24 {SEC 2009-02} [Prehearing conference] {08-20-10}

1 MR. FORTUNE: We just want to raise the issue at this point. That's all we can do at this point 2 is --3 MR. IACOPINO: Well, I can't tell you 4 that you're prohibited to file a Motion to Intervene. 5 Anybody can file anything. 6 7 MR. FORTUNE: Right. 8 MR. IACOPINO: I believe it's probably unlikely for it to be granted, but I will take it. 9 Ι expect that the Applicant will be prepared to object 10 11 Monday morning. And, we will deal with it as a housekeeping matter. I would suggest you be here Monday 12 morning, when the hearing starts, sir, in case the 13 Chairperson wishes to discuss it with you. He may not. 14 15 But, if he does, I'd suggest that you be here for Monday 16 morning, and we'll deal with it as a housekeeping matter. 17 MR. FORTUNE: Now, are we entitled to address the Committee on Monday as a public -- is it open 18 to the public? 19 20 MR. IACOPINO: I'm going to take that 21 motion from you. I haven't seen it, you have something 22 written, obviously, it's in front of you. 23 MR. ROTH: I think what he was talking about was public comment, making a public comment. 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

1 MR. IACOPINO: Yes. There will be a time designated on Monday for public comment. 2 I think, right now, it's probably going to be right at the 3 beginning, because we've had requests from the Coos County 4 Commissioners, and there was another --5 I believe Mayor Grenier, 6 MR. SCHNIPPER: 7 from the City. 8 MR. IACOPINO: -- Mayor Grenier, right, both asked if they could address first thing Monday 9 morning, and that's been my recommendation to the 10 11 That would get that out of the way. Chairperson. And, I understand that Mr. Patch wants to read a letter from 12 I assume that will be done Monday morning as 13 Gestamp. well, at least that's my understanding. 14 15 MR. RODIER: And, I'm going to have a --16 if the Mayor -- Berlin is a party. And, I do not think a party should be allowed to make public comment. 17 MR. SCHNIPPER: Well, I'll, obviously, 18 19 leave that to the Chairman of the Committee. But, you 20 know, we represent the City polity as a whole. And, it 21 effectively is the legislative branch which makes the 22 ultimate decisions for the City. The Mayor would not be 23 appearing in his official capacity as the City, but he would be appearing in his official capacity as the 24

{SEC 2009-02} [Prehearing conference] {08-20-10}

executive, chief executive of the City. So, I leave that 1 to the Chairperson of the Committee. And, I would just 2 finish by saying that I'm not in control of what the Mayor 3 4 does or attempts to do. 5 (Laughter.) MR. ROTH: We would not object to the 6 7 Mayor making a comment. 8 MR. NEEDLEMAN: Nor would we. MR. IACOPINO: Well, if he's going to be 9 permitted to, it's going to be Monday mooring. 10 11 MR. RODIER: Okay. And, just for, I mean, as 12 MR. IACOPINO: Counsel for the Public is aware, it's not unusual, if you 13 come in here on the first day of an adjudicatory, to see a 14 15 state senator or somebody also come in who wants to make a 16 comment, and it has been, obviously, the -- or a county 17 commissioner, it has been the policy of the Committee in the past to allow that to be done. We ask everybody to 18 make their public comments and be as brief as possible in 19 20 doing so, because we really want to get the adjudicatory 21 rolling. As all the lawyers in the room know is, when 22 you're taking evidence, the sooner you can get it going, 23 the faster it goes. So, --24 MR. RODIER: Right.

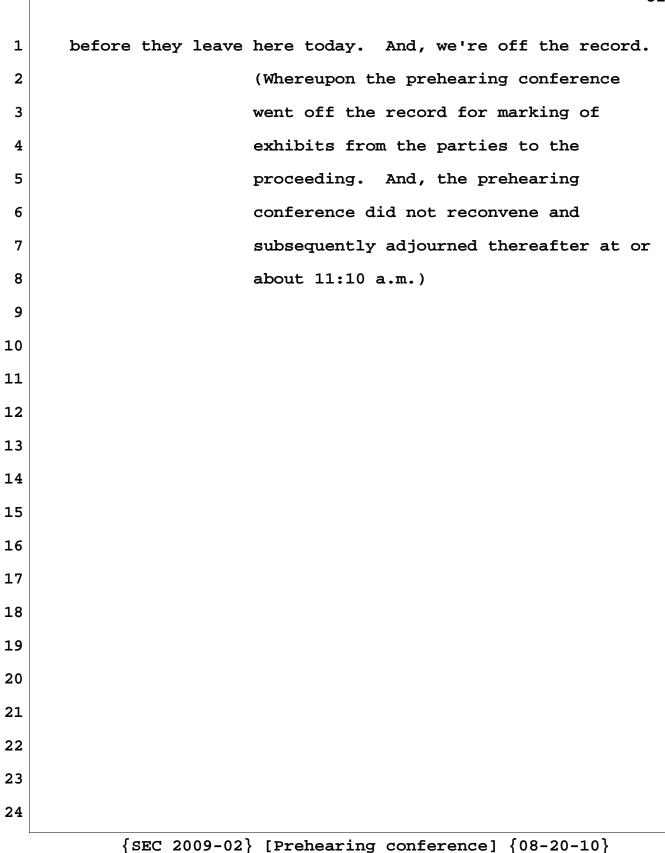

{SEC 2009-02} [Prehearing conference] {08-20-10}

79 1 MR. IACOPINO: And, I don't mean that in 2 a disparaging manner. I mean it because there will be a lot of fits and starts in this hearing, just as there is 3 in any trial in a court or any administrative proceeding. 4 So, my only point was that 5 MR. RODIER: parties should not be making public comment. 6 That's what testimony if for. Now, I did hear a differentiation from 7 the attorney for the City Council? 8 MR. SCHNIPPER: Well, we're the attorney 9 for the City. 10 11 MR. RODIER: For the City, okay. And, 12 the Mayor of the City you see is in a slightly different 13 compartment? MR. SCHNIPPER: And, look, I understand 14 that, you know, from your position, there might not seem 15 16 to be a sufficient enough difference to justify him making 17 a public comment. And, that's why I say, the City of Berlin does not look at his statements on Monday morning 18 as statements by the City of Berlin during the course of 19 this proceeding. He, as the Mayor of the City, wishes to 20 21 come --22 MR. RODIER: Okay. 23 MR. SCHNIPPER: -- and present a 24 statement to the Committee. And, to the extent that the {SEC 2009-02} [Prehearing conference] {08-20-10}

Committee is going to permit that, --1 2 MR. RODIER: Okay. MR. SCHNIPPER: -- he's going to do it. 3 4 MR. ROTH: The statute provides that the 5 Committee is supposed to hear and take due regard of the views of elected officials in the place where the project 6 7 is being constructed. So, --8 MR. RODIER: Don't they have to intervene? 9 They don't. 10 MR. ROTH: No. 11 MR. RODIER: Oh. Okay. MR. IACOPINO: And, it is no secret that 12 the Mayor has already made public comment at the 13 14 informational hearing that we had up in Berlin. 15 MR. RODIER: Okay. MR. IACOPINO: He spoke at that hearing 16 17 as well. MR. RODIER: All right. It's not worth 18 19 arguing about. 20 MR. IACOPINO: And, you're certainly 21 free to object to it on Monday morning. But, you know, 22 just as a said, for the most part, when elected officials 23 or public officials have come to give public comment, we 24 have generally permitted it to happen.

{SEC 2009-02} [Prehearing conference] {08-20-10}

81 1 MR. RODIER: Yes. MR. IACOPINO: And, we've tried to get 2 it down quickly. And, in this circumstance, we'll try to 3 get it done Monday morning. 4 5 MR. RODIER: Okay. They also write letters. 6 MR. ROTH: 7 MR. SCHNIPPER: Yes, they do. 8 MR. RODIER: Tell us about it. No, that's fine. I'm dropping it, okay? I hear what you're 9 saying. That makes sense. 10 11 MR. IACOPINO: All right. Any other issues that anybody wants to raise? Mr. Fortune, why 12 don't you give me that motion. 13 MR. FORTUNE: Well, I don't have all the 14 copies. That's my original. I couldn't get it off the 15 press fast enough. 16 17 MR. NEEDLEMAN: Can we get a copy today? MR. IACOPINO: Yes, I'll try to get 18 19 copies for everybody. MR. FORTUNE: Well, I could read it 20 21 right now? 22 MR. IACOPINO: Well, no, you've got to 23 give it me or you're not technically moving to intervene. So, just give it to me, I'll get copies made for everybody 24 {SEC 2009-02} [Prehearing conference] {08-20-10}
