Subject: Re: Proposed Groton Wind Farm

Commissioner Thomas S. Burack, Chairman
New Hampshire Site Evaluation Committee
29 Hazen Dr., P.O. Box 95
Concord, NH 03302-0095

Dear Commissioner Burack:

Like most Americans I thought wind turbines were green and beautiful. When I heard these huge industrial installations would be less than one mile from me - uphill, I was apalled! People should not live near turbines. It's not safe, no way - no how!

I hear there are no laws to protect us. Please help stop this project in Groton.
