Dear Commissioner Burack,

Pursuant to New Hampshire Site Evaluation Committee Rules Site 202.11, I request permission to intervene pro se in the application pending for Groton Wind Project and in any and all hearings regarding the same, as I am a property owner and resident on Rte. 25 in Rumney and less than 1 mile from the proposed wind farm, and will be directly affected in a negative way if approval is given for this project. I am prepared to work diligently, responsibly and respectfully in the interest of justice.

Yours truly,

Richard Wetterer
