Subject: Withdrawal from intervener status

Dear Ms. Murray,

I have been granted intervener status as part of a group of Rumney residents (Dr.Mazur, Christine DeClercq-Mazur, Sarah Mazur, Richard Wetterer, Kathleen Park). I wish to withdraw from this status for the following reason:

On July 29 I will be traveling to India for one year. Because of enormous time pressure I am not able to sufficiently prepare my arguments, nor will I be able to meet any of the scheduled meetings and proceedings.

My withdrawal, however, does not reflect a withdrawal of my concerns about the proposed Groton Wind turbine project - to the contrary. The more I inform myself about wind turbines, the more concerned I get. I am convinced that the effects and consequences such wind turbine farms have on people's health and the impact on the environment need to be studied in great depth beforehand.

Sincerely,

Annie Valdmanis
