

Rumney, March 28, 2011

From: Mazur-Wetterer Intervenor Group of Rumney, NH

To: STATE OF NEW HAMPSHIRE SITE EVALUATION COMMITTEE
Docket No. 2010-01 Application of GROTON WIND LLC for a certificate of site
and facility for a 48 MW wind turbine installation in Groton, Grafton county,
New Hampshire.

Ref: SUMMARY STATEMENT ADDENDUM # 2

Dear Sirs,

We herewith approach the Committee with a last resort request, namely, that should you approve this project, you will require Iberdrola Corporation to provide a Property Value Guarantee Contract for all affected homeowners whose properties will be in view of and in close proximity to the planned turbine site of the Groton Wind LLC proposal.

Making this a condition for Committee approval of the project would be a small justice granted in return for the suffering and inconveniences, the headaches, the heartaches and the physical, emotional and financial setbacks that this undertaking will impose on the residents of the Baker River Valley.

Living in the shadow of turbines might be impossible.

Having to sell, renegotiate or abandon one's homestead and relocate are not easy things to do. Certainly the applicant should be obligated to provide mitigation for all affected homeowners within a 2 mile radius of the project.

Sincerely,

The Mazur-Wetterer Intervenor Group,
Richard Wetterer, Lawrence A. Mazur MD. , Sarah M. Mazur,
Christine G. De Clercq-Mazur, Theodore G. Mazur.
