

MEMORANDUM

To: All Parties - NHSEC Groton Wind Docket, No. 2010-01
From: Mike Iacopino
Date: May 6, 2013
Re: Memorandum Continuing Prehearing Conference

By order dated April 1, 2013 a further Prehearing Conference in this docket was scheduled for May 7, 2013.

On May 3, 2013 an Agenda for the Prehearing Conference was distributed to the parties. Additionally the place and time for the Prehearing Conference was designated. During the late afternoon of May 3, 2013, Marianne Peabody, an intervenor and abutter to the Facility, communicated with undersigned Counsel to the Committee and advised that a family medical issue would prevent her from attending the further prehearing conference.

On May 6, 2013, the Applicant, through counsel, filed a motion to continue the Prehearing Conference until a date after May 9, 2013. The Applicant asserts that its senior project manager Mr. Doren Emmett is also unable to attend the prehearing conference.

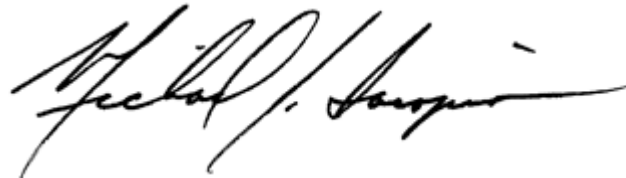

The subject of the Prehearing Conference has been limited to the issue surrounding the siting and construction of the operations and maintenance building at the Facility.

Counsel for the Public concurs with the request for a continuance. No party indicated any objection to the motion to continue the Prehearing Conference.

Ms. Peabody's family medical issue and the unavailability of Mr. Emmett do constitute good cause to continue the Prehearing Conference.

The Motion to Continue is granted¹. The Prehearing Conference will be continued to a date after May 9, 2013. A further scheduling order will issue.

May 6, 2013

¹ Pursuant to Site 202.10 Counsel to the Committee may be designated as presiding officer for a prehearing conference.
