**Subject:** Groton Wind, LLC SEC Docket #2010-01

December 30, 2013

NH Site Evaluation Committee  
Mr. Thomas S. Burack, Chairman

I, Marianne Peabody, 551 Groton Hollow Rd, Rumney, NH concur with with the motions to object to amend the original certificate approving to construct and operate the Groton Wind, LLC project submitted by the Attorney for the Public, State Fire Marshal, Mario Rampino, thru his Attorney, Justin C Richardson, Intervenor Group Buttolph/Lewis/Spring and Mark Watson.

The original permitted locality of the O & M Building's setting did not leave a damaging effect to the once unruffled, tranquil neighborhood.

The placement of the non-permitted location of the O & M Building created my property to be labeled as a direct abutter to the O & M Building site. By Groton Wind, LLC constructing the building where it's now positioned for purpose of suitability, my property was denied under RSA 162-H 6-a VII & X rights to protection from any adverse effects and has compelled me to take action after the fact.

I formally request the Site Evaluation Committee to deny GrotonWind's motion to amend the certificate, and grant such relief as the Committee may deem appropriate.

Respectfully Submitted,

Marianne Peabody
