

**STATE OF NEW HAMPSHIRE  
SITE EVALUATION COMMITTEE**

**Antrim Wind Energy, LLC**

**Docket No. 2011-02**

**RE: INTERVENTION OF PETITION OF JURISDICTION OVER RENEWABLE ENERGY  
FACILITY PROPOSED BY ANTRIM WIND ENERGY, LLC**

**MAY 20, 2011**

**TESTIMONY OF ANNIE LAW**

1 **Q. Please state your name and address.**

2 **A.** Annie Law ~ 43 Farmstead Rd., Antrim, NH 03440.

3 **Q. Are you familiar with the proposed Antrim Wind Energy, LLC project that is subject of this docket?**

4 **A.** Yes, I am very familiar with this project and have been involved, as a resident being affected  
5 by the project because I live directly across the valley from Tuttle Hill, within a range of 1.5  
6 miles from the MET tower and the location of the proposed wind energy facility.

7 **Q. What is the purpose of this testimony?**

8 **A.** I have been a resident of the North Branch Farmstead on Windsor Mt. for the past 23 years.  
9 We chose to build our home here because of the pristine beauty and peaceful atmosphere of the  
10 Rural Conservation District, knowing that it is protected by zoning regulations and ordinances.  
11 The Antrim Planning Board has created zoning ordinances for the past three decades, which are  
12 revised annually and the newly elected members are in the process of developing a  
13 comprehensive plan for the inclusion of renewable energy in our zoning ordinance. I feel that as  
14 residents of the North Branch of Antrim, we have a right to maintain local control in making our  
15 own decisions about whether or not an industrial wind farm should be allowed in our Rural  
16 Conservation District. Extensive education is needed in this arena and if the SEC takes  
17 jurisdiction of this project, we will have no say in what happens to our way of living and health;  
18 not to mention what it will do to the wildlife and the destruction of Tuttle Hill. I am asking you  
19 to let us keep our local control and decide for ourselves whether or not to allow the proposed  
20 project in our community. Antrim Wind Energy, LLC came into Antrim two years ago with their  
21 proposed MET tower and wind energy project and has divided the citizens of this town in half.  
22 Since we are opposing their project, now they are asking the SEC to take jurisdiction over it,  
23 which violates our rights as citizens and tax payers of this town.
