To whom it may concern:

I would like to express my strong support for the Antrim Wind Farm project. I am part of the majority of Antrim residents who support this project - one of the large majority who expressed that opinion in the 2 votes which have been held. I hope that you will take this on and help make this project a reality. I see this project as being in the best interests of the town as a whole, and I can see no legitimate reason to oppose it.

Sincerely,
Kathryn Chisholm
Antrim
