

Mon 2/4/2013

Dear Chairman Burack,

I am writing to express my support for construction of a wind farm in Antrim. The project will bring much-needed revenues to our town, as well as employment and energy to the region

A small but vocal minority in our town have sought to delay or derail this wind farm. Their emotional appeals are based on myths and do not stand up to scrutiny. While their passion is admirable, they have held Antrim hostage to their "not in my back yard" mentality for far too long.

I strongly urge the New Hampshire Site Evaluation Committee to let this project proceed to the next stage.

Yours,

Christopher Condon
