Re: Motion to Object Letter from Climate Counts

Dear Ms. Murray,

We would like to file a Motion to Object to the letters submitted to you, dated April 17, 2013 from Mike Bellemente, Director of Climate Counts and yesterday's letter 4/25/13 from AWE.

We were interveners with the North Branch Antrim Group and applaud the decision of the SEC to turn down AWE's application for a permit to build an industrial Wind Farm on Tuttle Hill and the continuing ridgeline all the way to Willard Pond in Antrim, NH.

The public record for the Antrim docket has officially been closed. We strongly believe it is inappropriate for additional letters to be distributed to committee members and none should be posted on the SEC's website.

Mike Bellemente did not participate in the proceedings and is clearly distorting the positions of the parties, especially those of AMC.

We are asking that both letters not be distributed to the Committee nor posted on the SEC website, since this case is closed.

Respectfully,

Annie Law and Robert Cleland
43 Farmstead Rd.
Antrim, NH 03440
