Subject: Request for a Moratorium on Wind Turbine Projects in New Hampshire

Dear Legislators, Representatives, Executive Councillors and Commission Members,

I would like to request your support for a moratorium on wind turbine projects in New Hampshire, particularly the Wild Meadows Wind project, proposed for Alexandria, Danbury and Grafton. I understand there is consideration of a moratorium on new energy projects, triggered by HB648 and the Northern Pass project.

It is concerning to me that this substantial development is being considered with minimal notice to the people in these towns, as well as to others in the surrounding communities who are certainly going to be impacted. I am not opposed to "green" but loudly opposed to "greed".

I am requesting this moratorium be considered as I have concerns related to the negative impact this will have on our local economy and public health of our community, as well as impact to the Newfound watershed and wildlife environment. The negative consequences of these industrial wind turbines far outweigh the benefits.

Thank you very much for your consideration.

Sincerely,

Kerry Reilly
