Subject: New Foundlake Wind Turbines

I am a home own in Bristol & I don't support the additional wind turbines that they want to install around Newfound Lake. The beauty of Newfound Lake was to sit on the beach & see the beautiful mountains now we see wind turbines. The electricity is for other states not NH & why would we jeopardies the most beautiful lake in the US for another state. We lost the Old Man of the Mountain now you want us to give up Newfound Lake, enough is enough.

Happy Holidays
