Subject: Newfound Lake Area Wind Turbine

Ladies and Gentlemen: My wife and I and our family have a deep and long relationship with Newfound Lake and its environs. We have been blessed to be involved with the lake for over 50 years and for the past 20 years are privileged to be homeowners there. It would be a travesty to besmirch the area with wind turbines such that the ambiance of what we and so many others value is destroyed. I plead with you to do whatever you can to place a moratorium on all activities related to the Antrim project and a similar project in the Groton/Hebron area. Protection of this very special area is essential and I hope I can count on you and others to do just that. Thank you.

William T. Tumber, 52 Ledge Wood Circle, Hebron. 12/09/12
