Subject: Re: to members of the SB361 Commission - please support moratorium on wind turbines...let democracy work

Dear SB361 Commission Member:

As a voter and long time citizen of NH, **I am requesting your support for a moratorium on wind turbine projects in New Hampshire, particularly the Wild Meadows Wind project**, proposed for Alexandria, Danbury and Grafton. I understand there is consideration of a moratorium on new energy projects, triggered by HB648 and the Northern Pass project.

I am concerned that this substantial development is being considered with minimal notice to those of us who live in these towns, as well as to others in the surrounding communities who are certainly going to be affected. I think it right and fair that those affected have time to understand and work through the consequences of and prevent what seems to be a "fast one."

I am requesting this moratorium be considered as I have concerns about potential negative impact a wind turbine project will have on the local economy, public health and natural beauty of our community, as well as its impact on the Newfound watershed and wildlife environment. The negative consequences of these industrial wind turbines far outweigh the benefits.

I look forward to your response to help me understand your position about the moratorium and wind turbine projects in NH.

Please let New Hampshire Democracy work.

Sincerely,
Robert Ziegel
66A Windridge Road,
Bristol, NH 03222
