Subject:

Dear New Hampshire State Legislators,

I reside in Hebron, NH in the Newfound Lake area and am writing to voice my support for HB580 and HB484 that will be coming before the New Hampshire legislature on 2/19/13. These bills are in reference to the wind turbine farms that are planned for the towns surrounding Newfound Lake. I feel that these wind farms would substantially and permanently detract from the quality and character of the region. I urge you to support these bills as well. Thank you.

Sincerely,

Paul LaFontaine
