Mr. Cherien,

I would appreciate a response.

Thank you,

Cindy Kudlik

Mr. Cherien,

I am a resident of Grafton, New Hampshire and when you did a presentation at our town Fire House last fall, and then again at a Q&A session in Alexandria, New Hampshire you stated that if Iberdrola didn't have the community's support, you would not move forward on the project. As I'm sure you're aware of, both towns had warrant articles pertaining to this project on the ballot. The overwhelming response has been that we, the residents of these towns, do NOT want your wind turbines. At a meeting in January with the Groton selectmen Miles Sinclair spoke of what an honest and trustworthy man you are. As he has spent a great deal of time meeting with you I can only assume he knows you much better than those of us who've only had exposure to you at the above mentioned presentations and Q&A sessions. In light of him vouching for your character and there being video recorded of your statements in Alexandria, I look forward to seeing the press release published ASAP declaring that Iberdrola is ceasing to pursue the Wild Meadows Wind Project. I'd also appreciate it if you email me a copy of the press release as well.

Kindest regards,

Cindy Kudlik
