**Subject:** Wild Meadows Wind Project

Dear Sirs and Madams, Please let this E-mail express my feelings on the above proposed wind project, I am totally AGAINST this project. I feel that it will effect not just our small community of Danbury, but the whole state with the damage it will do to our natural resources in the state. PLEASE do what you can to prevent a horrific mistake from happening in this beautiful pristeen area. I hope that you will have an oppourtunity to visit Wild Meadows and see just how special this area is for yourself. People in the area have known and appriciated the area all their lives and often referred to it as "God's Country", or "Top of the World". The views from the hill tops are breath taking and provide a glimps into several counties. Thank-you.

Sincerely:  
Cheryl Duboyce  
Danbury, NH
