Subject: "Wild Meadows" Wind SEC File

Hi Tim,

Can you please include the email and the article/link I just sent to Ms. Maria Tur in the official file for this proposed industrial wind plant in the Newfound Lake area.

Thank you for all your ongoing help and time.

Larry

Dear Ms. Tur,

Tim Drew was kind enough to introduce me to you the other day.

I will be in touch soon with some follow up questions on Eagle Take Permits.

In the interim, here is a link from MSN regarding wind plants {they are not "farms" } killing Eagles.

My understanding is that Fox News also covered this story. I thought you might want to read this if you haven't already.

Thank you for your efforts to protect our wildlife.

Is this accurate in your opinion? If not, can you send me information to refute it?

I thought you would be interested in this: Wind farms get pass on eagle deaths -
