Dear Director Hatfield,

Last email I will send you for awhile.....promise.

However, the CEO of NRG {David Crane} may just be the kind of visionary leader the SB99 and SB191 study committees would benefit from inviting to speak.

His vision of the future, and it's already happening, is sustainable, local, reliable and cost effective.

Please consider inviting him to participate in the process OEP is leading.

Thank you very much.

Sincerely,

Larry Goodman
