Subject: Wild Meadows Wind Farm

Hello, my name is Andrew Panaggio. I am a citizen of Alexandria, NH. I'm writing this to inform you of my opinion of the proposal for a Wind Farm. Back in March, there was a question on the ballot concerning the Wild Meadows project, and the town voted against it. But, in recent meetings, the project seems to be moving forward as initially planned, while the majority of the town opposes the project. Our concerns are: the aesthetic integrity of 500 foot wind turbines built around a tourist attraction in the Lakes Region. I'm concerned with property values, the Newfound water shed, and the environmental issues that come with the project, such as, the deforestation required to move the pieces of the turbine, and the affect it has on the wild-life in the area.

My family has been in this town for five generations, and it'd be a shame to see these monsters on the ridge everyday. Please, I hope you make the right decision regarding these turbines.

Thank you for hearing me out,

Andrew Panaggio
