Having researched the wind industrie over the past year it is clear wind power is 1- useless in that it doea not displace Conventional power. 2-harmmful to people (ie. The town of falmouth ma. Has been ordered by a judge to shut down Turbines during the day:as reportedin the "cape cod times"  
3-cbs news reports 600.000 bats killed by turbines in the U.S. in 2012 alone.

I AM STRONGLY OPPOSED

Thank you john piccirilli
