KimEinNH@aol.com

Dear Jane,

My name is Kim Smith. I live at 13A Juniper Ridge at the Ledges in Alexandria.

Please register me as a NO vote on the Iberdrola Wind Turbine project.

Although I support many forms of clean energy which will help us stop global warming (as I have a website targeted for just that purpose: ICanStopGlobalWarming.com), this project is not the answer.

1. The turbines destroy the natural environment harming the wildlife and natural erosion of the mountain tops.
2. Poses life threatening harm to the eagles, bats, falcons, owls, etc.
3. Will bring decrease the natural beauty of our area, which will result in reduced property value and ability to buy/sell property.
4. The energy will not benefit NH residents, yet we will pay the cost to run them continuously.
5. We do not live in a wind turbine region, the wind is not strong enough or consistent enough to keep them running.
6. The noise of the turbines has been proven to cause mental illness/anxiety/sleep disturbances to nearby residents.

Thank you. Please forward my email to Alexandria selectmen.

Kim Smith
