To: Drew, Tim
Subject: Wild Meadows Wind Farm

To Timothy Drew, SEC Administrator:

Dear Mr. Drew,

I am writing as a concerned resident of Bristol to express my objection to the development of the proposed Wild Meadows Wind Farm. Any benefit that would be derived from this project seems to pale in comparison to the degradation of natural resources and natural beauty that will result from its completion. Property values, tourism and the integrity of the serene natural landscape will suffer, not to mention the severe and irreparable environmental damage that will be brought upon Newfound Lake by the resulting impacts on runoff in the watershed area.

If there is any way that I can be of assistance in effecting the cessation of this project, please let me know.

Respectfully,

James Collins
94 Hemp Hill Road
Bristol, NH 03222
