Monday 13th

Mr. Drew,

Just finished reading Gene Banks
"Letter to the editor" in our local
Bristol ^{paper} area as I do every week.
You should have a copy of the
article, it is right to the point why
we do not want to see Timberloch facing
our beautiful New Found Lake.
I have lived on Newfound for almost
50 yrs, running a seasonal cottage
business with my family. We have a
wonderful business, our people love to
enjoy the beauty of the lake and surroundings.
They would not enjoy these changes,
are blowing and turning near the lake.
They come to N.H. for quiet times and
no big Timberloch. I am sure the people
would be very unhappy, that would

mean to us less customers, doesn't
this count for more thought on this
project,

Think for a moment about the taxes
we pay and revenue N.H. receives from
our summer people.

Do not spoil what we have worked
so hard for - these companies do
not care for anything but profit.
You are the person, Mr. Drew that
we'll do some research about this,
I am sure.

Most of our small towns up here
are not agreeable to this move.
Enough is enough, I will leave this
problem in your capable hands.

Sincerely,

Barbara Park
