

**State of New Hampshire  
Site Evaluation Committee**

**NOTICE REGARDING REQUESTS BY INTERESTED PARTIES  
FOR WAIVER OF COMMITTEE FILING RULES**

September 8, 2015

PLEASE TAKE NOTICE that the Site Evaluation Committee for the State of New Hampshire (Committee) is prepared to consider requests for waiver filed by interested parties under Site 202.15 and Site 302.04 with respect to the Committee's filing requirements for energy facility certificate applications, petitions for jurisdiction, motions for declaratory ruling, exemption requests, and other related filings.

In particular, interested parties may request waivers regarding the place of filing and the number of copies to be included with such filings, with reference to the 2014 statutory amendments to RSA 162-H that transferred administrative responsibility for the Committee from the Department of Environmental Services to the Public Utilities Commission and decreased the size of the Committee from 14 members to 9 members.

---

Martin P. Honigberg, Chairman  
Site Evaluation Committee
