

Dear Attorney Wiesner,

I write in support of the SEC rules on Public Interest (301.16) and Cumulative Impacts (301.14) recently submitted to JLCAR for approval.

As a member of the original focus groups, the citizen workshops, and a working group, I have followed the development of the new rules closely, and I believe that these rules fulfill the intent of SB 99 and SB 245, which I also followed closely as they made their way to adoption.

A great deal of thoughtful work, not to mention time, has been invested in these rules, starting with the legislature, then citizen, industry and other input, and ending with the SEC's careful considerations. It is time now to adopt the rules as presented to JLCAR.

Thank you for your consideration.

Susan Schibanoff
