

3/20/2015

Dear Ms. Murray:

As a life-long, permanent New Hampshire summer resident and taxpayer from Massachusetts, I am personally outraged by the suggestion that my summer home and my property rights would be taken away by the SEC, whose members apparently are happy to ignore the basic of rights of New Hampshire Taxpayers and Property Owners.

Thus, I am sending you this email in the hope you will recognize the *obvious unfairness* of the proposed SEC Guideline to **exclude second homeowners** from consideration in regard to Industrial Windmill setbacks, noise limits, and visual impact. I also strongly suggest that further Wind Development be **suspended** until such time as a fair and equitable proposal is on the table that **includes second homeowners** and includes a provision for **Local Home Rule**.

And for the record: My family has owned and paid taxes on 24 Wildwood Avenue in Bristol NH since 1943.

Sincerely,

/js/

Jim Salvucci
