Subject: Say not to weakening criteria for "Public Interest"

PLEASE DO NOT LET the PUC and SEC (JLCAR) vote to ignore town ordinances in regard to NED, or any other project that comes before them. It is NOT too much of a burden, and it should BE the burden of the project's proposers to go along with town ordinances, and have them at least considered in lieu of any project. Why make it so easy for developers and not listen to our people? People who live, work, PAY TAXES, and vote in these towns and have made these ordinances SHOULD NOT LOSE THEIR VOICES TO DEVELOPMENT, ESPECIALLY CORPORATE MONEYMAKERS FROM OTHER STATES. DO NOT WEAKEN THE CRITERIA FOR "PUBLIC INTEREST" Why does the PUC continue to favor big development over the people of this state??
