

Sun 7/5/2015

Hello Jane,

I have heard of the plan to put up 10 windmills near Willards Pond and close off the area to the public for fishing and canoeing.

This is a terrible idea and I hope it can be voted against in Concord tomorrow.

Please be advised that I and hundreds of nature loving citizens enjoy the beauty of Willard's Pond immensely. Crystal clear water, birds, wildlife, nature trails, swimming and fishing are the activities we all love and want to preserve. I am a member of the Audubon Society. My family and I look forward to spending many happy times at Willard's Pond and would be heartbroken should we be told it is no longer accessible to us. The windmills with their noise and damage to wildlife would be unthinkable.

So I am asking you to please vote against this measure in Concord tomorrow!

Thank you,

Jeanne Duffy from Nashua

( Yes, I drive all the way from Nashua to go to the pond! ) [jdnature8@yahoo.com](mailto:jdnature8@yahoo.com)
