Re: NH SEC Docket 2015-02: Antrim Wind Energy, LLC Request for Certificate of Site and Facility – Update on New England Clean Energy RFP

Dear Ms. Monroe:

On behalf of Antrim Wind Energy (“AWE”), I write to inform you that, on October 24th, 2016, AWE was selected to enter into negotiations for long-term contracts for energy and renewable energy credits pursuant to the New England Clean Energy RFP. A total of 460 MW of new renewable generation projects were selected to enter into negotiations in this RFP, only two of which were wind energy projects and AWE is the only wind project located in New England to have been selected.

AWE’s selection, after nearly 10 months of review in this competitive RFP process, is further evidence of the Antrim Wind Project’s competitiveness in the commercial marketplace. Please contact me with any questions regarding this update.

Sincerely,

Barry Needleman
