13 January 2016

Ms. Pamela G. Monroe, Administrator
NH Site Evaluation Committee
21 Fruit Street, Suite 10
Concord, New Hampshire 03301-2429

Dear Ms. Monroe:

We, the undersigned, wish to add to our intervention request of 12 January 2016, the following paragraph.

As meteorologists, we have substantial, and very different interests in this proceeding from all the other parties in the case, in that the data and models presented by the appellant will require careful analysis, study and evaluation, by trained meteorologists. We are all professionals who have participated in legal and administrative proceedings over many years. We have a substantial interest in the outcome of this proceeding, those interests will not be adequately protected by other parties in this case, and our participation will not impair the orderly and prompt conduct of the proceedings.

We can supply signed copies of both letters, if required by your Committee.

Sincerely,

Richard Hendl, Springfield, NH, PhD rghendl@alum.mit.edu Joseph D'Aleo, Hudson, NH,
