Site Evaluation Committee

Docket Number 2015-2
Re: Antrim Wind Energy, LLC
Petition for Intervention by
Wesley Enman

My name is Wesley Enman.

16 Pierce Lake Rd.

Antrim NH 03440

I am a supporter of the Antrim Wind Project.

My wife and I built our home in 1982.

Our home is approximately 3 miles from the nearest sited turbine.

I am a forward thinking outdoor enthusiast who has owned my own general contracting business for 31 years.

I have spent a considerable amount of my 34 years in town hiking, fishing, kayaking, exploring and enjoying the outdoors in and around the Antrim area. My children grew up with the educational programs offered through the Harris Center in conjunction with the Conval School District. My wife and I participated as parent chaperones. To this day we frequent Willard Pond Preserve and Gregg Lake. Over Christmas my wife, daughter and I spent a day doing a 5 plus mile bushwack around the old Antrim Watershed and Gibson and Riley Mountain. This area is just east of the proposed Antrim Wind site.

As an intervenor who supports this project, my hope would be to provide an alternative reality to the potential impacts and benefits this project will bring to Antrim and the surrounding area. I appreciate the opportunity to participate in this important process.

Respectfully submitted,

Wesley Enman
