Dear Chairman Vose, STE and SEC Committee Members,

In having testified in past hearings on Antrim, I find the story in the Union Leader quite disturbing.

https://www.unionleader.com/news/environment/antrim-residents-want-new-wind-project-hearing/article_b7b4ed2f-7802-571a-91af-ec56fe49add.html

The families abutting the Antrim project have been subjected to enough abuse as violations during construction and operation of this industrial wind facility have been ongoing.

Add to it the reluctance by the SEC to adhere to its own rules as well as the violations of open meeting laws by not notifying abutters of multiple hearings that should have been an opportunity for them to be heard.

What we have is a recipe for mistrust of government agencies that are supposed to protect the well being of the citizens of New Hampshire.

Now is the time to right this wrong and for the SEC to reschedule this hearing so that the people from Antrim can be treated fairly and for the citizens of New Hampshire to feel that the people hired to protect their rights and safety are doing their jobs.

Thank you for your time,

Ivan Quinchia
