

Dear New Hampshire Site Evaluation Service List for the "Seacoast Reliability Project":

Please see the request to intervene below, originally submitted on July 22, 2016. There was some confusion regarding the "service list" as distinguished from the published "distribution list," and this was just pointed out to me yesterday.

Respectfully submitted,

Nick Smith, J.D./Ph.D.  
270 Durham Point Road  
Durham, NH 03824

Subject: RE: Motion to Intervene in Seacoast Reliability Project

Dear New Hampshire Site Evaluation Committee Members for the "Seacoast Reliability Project":

I do not see myself listed as an intervenor. Please let me know if there was a problem with my request that requires correction under the liberal standards for inclusion as an intervenor.

Thanks,  
Nick

Subject: Motion to Intervene in Seacoast Reliability Project

July 22, 2016

Re: Application of Public Service Company of New Hampshire D/B/A Eversource Energy for a Certificate of Site and Facility Docket No. 2015-04

Dear New Hampshire Site Evaluation Committee Members for the "Seacoast Reliability Project":

I hereby request that the Site Evaluation Committee grant me intervenor status in the proceedings and grant such relief as the Committee deems just and equitable.

My family owns and resides on 15.75 acres at 270 Durham Point Road in Durham, NH. The purported Eversource easement transverses my property, and the proposed project would impact our view scapes, property values, and wildlife habitats.

The interests of justice and the orderly and prompt conduct of the proceedings will not be impaired by allowing this intervention.

Respectfully submitted,
