Re: Seacoast Reliability Project (SEC Docket 2015-04); 5 Piscataqua Drive laydown area in Newington

Dear Ridge,

This letter provides you with identification of a new laydown area at 5 Piscataqua Drive in the Town of Newington to be used for the construction of the Seacoast Reliability Project. This submittal is to comply with Condition 7 in the Alteration of Terrain final decision, dated October 29, 2018, adopted by the NH Site Evaluation Committee.

- *7. The Applicant shall identify to NHDES all marshaling yards, laydown areas and off-right-of-way access ways not currently identified for review prior to their construction.*

The 5 Piscataqua Drive laydown area is shown on Figure 1. It consists of a previously developed paved parking area and former building site on 1.53 acres. A driveway access to the structure at the back of the lot will be maintained on the east side of the lot. Freshwater wetlands occur on the perimeter of the site but no wetlands will be affected by the development. No cultural resources were found on the site.

This laydown area will be used in addition to the three areas in Newington sent to you on July 22: Shattuck Way; and two on Town of Newington facilities at their Department of Public Works and the Town Offices.

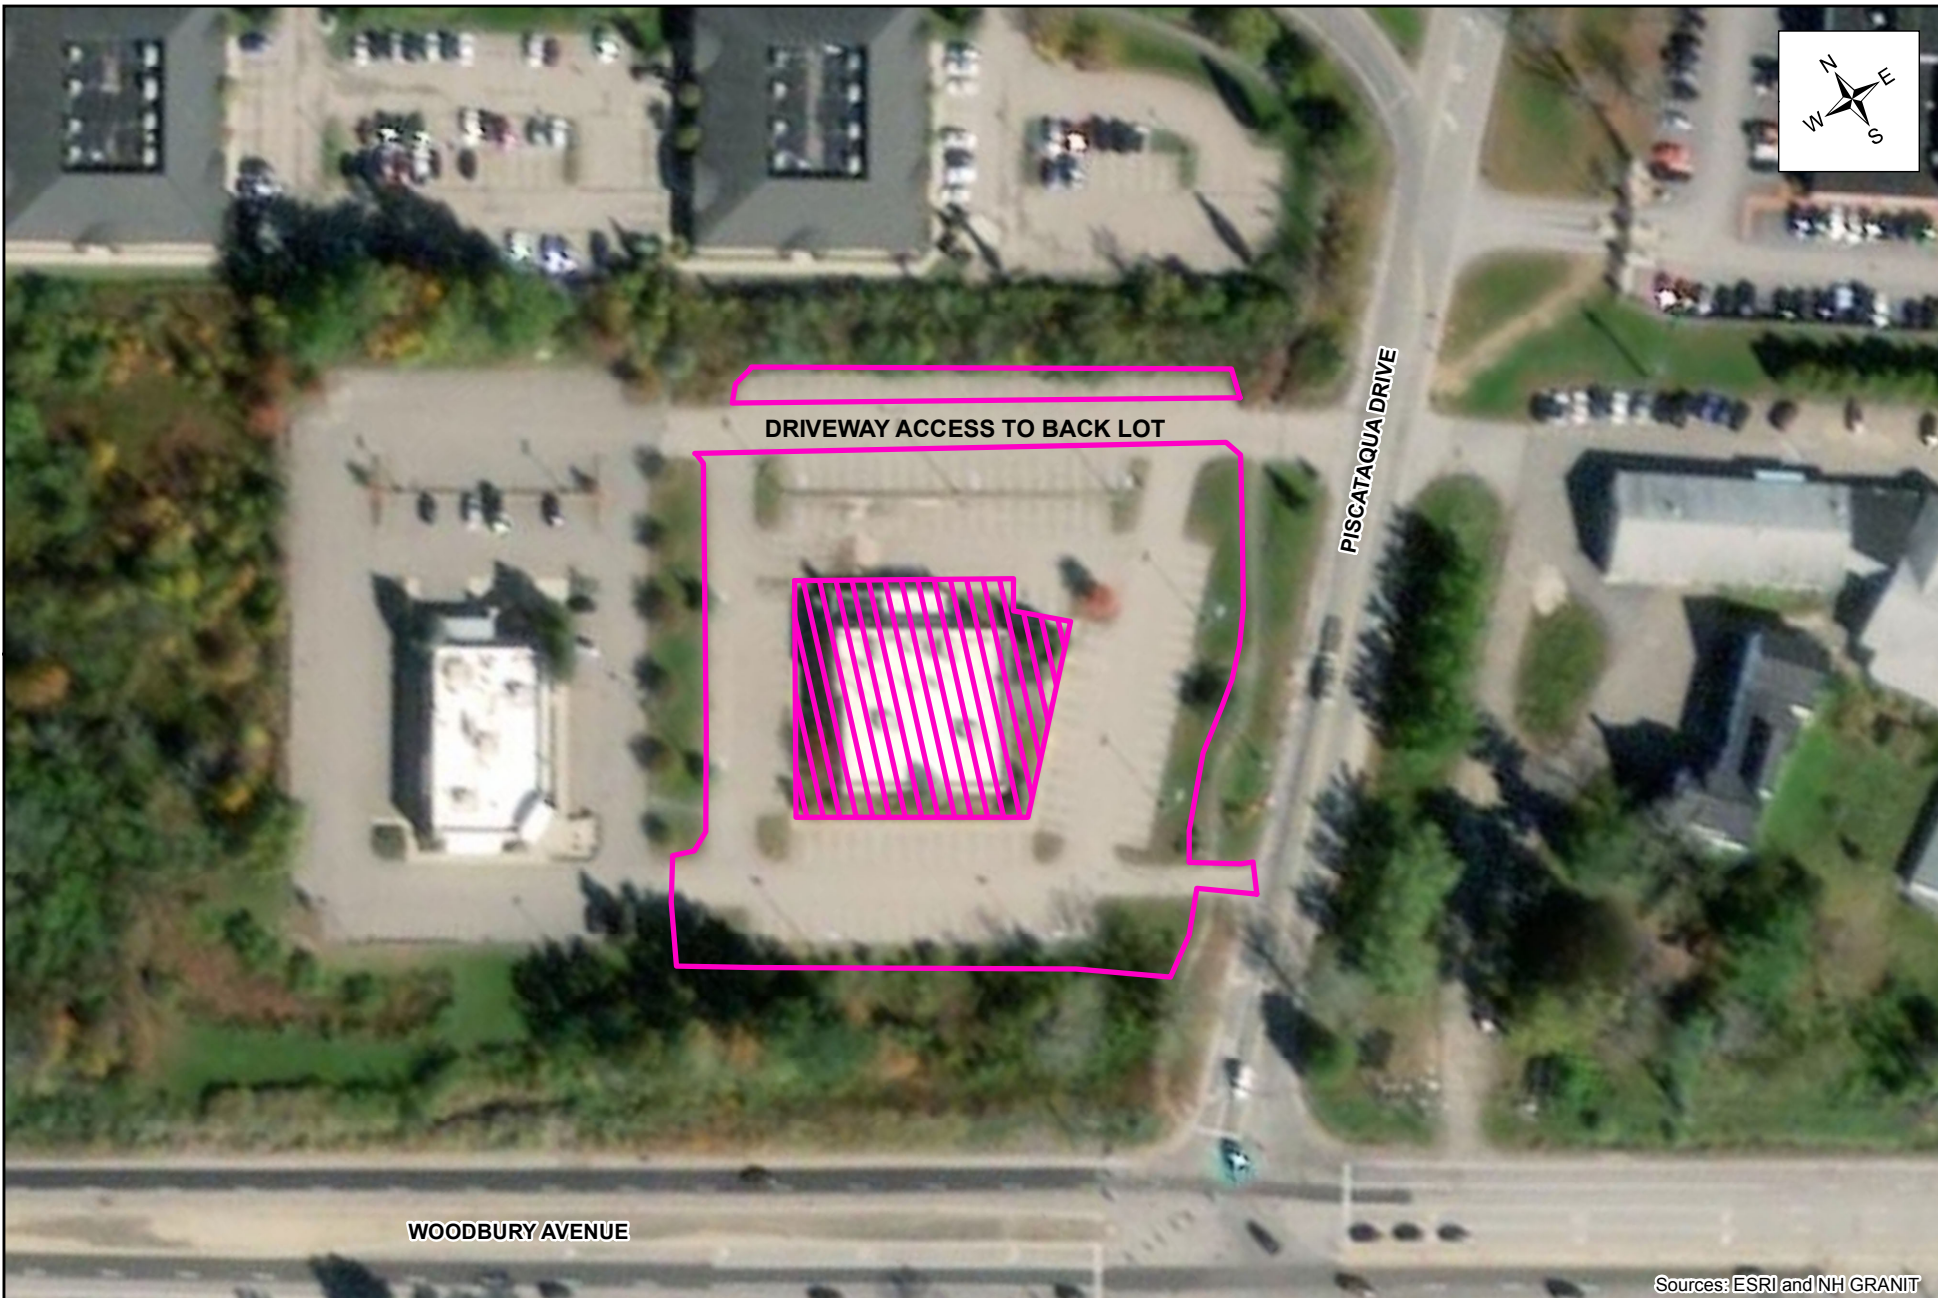

We are also forwarding a copy to the SEC as required. Please contact me at ((603) 634-3256; kurt.nelson@eversource.com) or Sarah Allen ((603)-637-1158; sallen@normandeau.com) if you have questions or comments.

Sincerely,

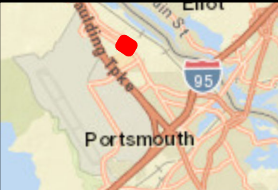

Kurt Nelson
NH Licensing and Permitting Specialist
