---

Dave,

This email is to notify you that the Environmental Monitor for the Seacoast Reliability Project is changing from Matt Smith to Elizabeth Olliver, per NHSEC Docket 2015-04, DES Wetland Condition 30. Elizabeth is a Normandeau Senior Wetland Scientist. She is conducting the post-construction monitoring on several other Eversource lines, and a Boston river restoration project. She has been shadowing Matt for over a month and is up to speed in the requirements of the project. She and Marc Jacobs will continue with weekly reports and SWPPP inspections as needed. This week is Matt's last week; Elizabeth will be the sole inspector starting next week.

Please let me know if you have any questions or comments.

Sarah
