### **General Comments**

- Continued BMP maintenance and upkeep is a constant priority on shorelines of both sides of the Bay until vegetation has established to stabilize the sites.
- All contractors on site should have a copy of the construction drawings.
- Be sure to remove any remains of silt socks etc unless directed by the environmental monitor.
- Stone and gravel used on the access roads should be removed or contoured and covered with topsoil, then seed and mulch, according to the BMPs.

### **Work completed this week:**

- *Portsmouth*
  - *None - construction and restoration complete. Post-construction inspections underway.*
- *Madbury*
  - *None - construction and restoration complete. Post-construction inspections underway.*
- *Newington.*
  - *None.*
- *Durham.*
  - *JCR completed timber mat removal and restoration activities near Strs. 51-52 and continues restoration activities along Bennett Rd. access road. Removal of BMPs between Strs. 61-80.*
  - *Graton began site work to move the cable house to its permanent location. They excavated the new cable house foundation and are beginning its construction.*

### **Erosion and sediment control items and observations:**

- **BMPs**
  - BMPs should be left in place until the sites are stabilized per the environmental monitor. There are areas where BMPs can be removed with environmental monitor approval.

### **Corrective Action**

- None
