Commenter Words

I am a resident of Colony Cove in Durham, NH. I have a home on the bay and live close to the proposed Eversource drilling site. I am opposed to the drilling site to begin with, as I believe it will do irreparable harm to the bay.

Now I have learned that there is a bald eagle nest on Little Bay at the property directly next door to the Eversource proposed site for the Seacoast Reliability Project drilling under the bay. The nest, which overlooks the water from 283 Durham Point Road, is approximately 600 feet from the work site. The proximity leads me to believe that the nesting of the eagles would be disturbed. My understanding is that this would be in violation of the Bald and Golden Eagle Protection Act (16 U.S.C. 668-668c).

Sincerely,

Jennifer K. Carlson
