Commenter Words

There is a bald eagle nest on Little Bay at the property directly next door to the Eversource proposed site for the Seacoast Reliability Project drilling under the bay. The nest (overlooking the water from 283 Durham Point Road) is fewer than 1,000 feet from the work site, and I believe that the work will disturb the eagles nesting and therefore be in violation of the Bald and Golden Eagle Protection Act (16 U.S.C. 668-668c). I will also share this information with Eversource.

Please see this site I created to show photos of the eagles and their nest site.
