Commenter Words

I am writing to encourage the SEC to re-evaluate Eversource's Seacoast Reliability Project power line expansion and jet plowing under the bay. There is evidence that bald eagles have been nesting very close to the proposed drill site, which would disturb the bald eagles. This would be illegal under The Bald and Golden Eagle Protection Act (16 U.S.C. 668-668c).

Although I do not live in New Hampshire, I am a regular vacationer and I would hate to see these protected birds at risk.
