Subject: Eversource Seacoast Reliability Project hearing

To the NH Site Evaluation Committee:

We are property owners at 20 Colony Cove Rd. in Durham, with 1000 feet of shoreline on Little Bay. We cannot attend the hearing, but we want to register our opposition to the Eversource plan to dig a deep underground tunnel for a new cable across Little Bay. It will affect the water quality, and harm the vegetation, oyster beds, fish, and nearby nesting eagles.
