Subject: Eversource Power Lines in Newington

Pamela,

I am a Newington resident and want to request that the Site Evaluation Committee ensures that Eversource bury any new lines they propose going through town. We have a small residential/farming/historic section in town and overhead lines would despoil that area. If burying lines vs overhead lines is primarily a money issue, consider that the town will never be able to recover its charm, while Eversource will be able to recover its costs.

Thanks for your consideration.
